Disclaimer

This Request for Proposal ("RFP") is issued by the Ministry of Statistics & Programme Implementation (MoSPI). The objective of this document is to solicit technical and financial offers from the parties interested in carrying out the scope of work as mentioned in this document. While this document has been prepared in good faith, no representation or warranty, express or implied, is or will be made, and no responsibility or liability will be accepted by MoSPI or any of their employees, advisors, or agents as to or in relation to the accuracy or completeness of this document and any liability thereof is hereby expressly disclaimed.

Interested Parties may carry out their own study/ analysis/ investigation as required before submitting their proposals.

This document does not constitute an offer, or solicitation of an offer, nor does this document or anything contained herein shall form the basis of any agreement or commitment whatsoever.

MoSPI representatives, its employees and advisors make no representation or warranty and shall incur no liability under any law, statute, rules, or regulations as to the accuracy, reliability, or completeness of this document.

Activities listed in this RFP to be carried out by MoSPI, after the receipt of the responses are indicative only. MoSPI has the right to continue with these activities, modify the sequence of activities, add or remove activities, as dictated by the best interests of MoSPI.

Invitation

Ministry of Statistics & Programme Implementation (MoSPI) invites Proposals/ Bids for onboarding an Agency to Design, Develop, Operate, and Maintain the Unified Web Portal & Dashboard for the Social Statistics Division (SSD) as per the scope of work defined in this RFP. The Bidders/Applicants desirous of taking up the project are invited to submit their Proposal/Bid in response to this RFP. The Bidders/Applicants should have the necessary experience, capability, and expertise to perform, as per the terms and conditions outlined in this RFP. The RFP is not an offer by MoSPI, but an invitation to receive responses from the potential Bidders. No contractual obligation whatsoever shall arise from the RFP process unless and until a formal contract or work order is offered by duly authorized official(s) of MoSPI with the successful bidder.

Factsheet

S.no.	Particulars	Details
1.	Assignment Title	Request For Proposal (RFP) for Selection of Agency to Design, Develop, Operate, and Maintain the Unified Web Portal & Dashboard for Social Statistics Division, MoSPI
2.	Purchaser details	Abhishek Gaurav Deputy Director Social Statistics Division National Statistical Office Ministry of Statistics & PI Room no 17, Khurshid Lal Bhawan Janpath, New Delhi-110001 Mobile: 011- 23455108 Email: dd4.ssdiv@mospi.gov.in
3.	Location	New Delhi, Delhi
4.	Bid Submissions	Through GeM portal
5.	Method of Selection	Quality Cum Cost Based Selection (QCBS) (Technical: 70, Financial: 30)
6.	Consortium/ Subcontracting	Not Allowed
7.	EMD	Rs. 12,00,000/-
8.	Performance Security/Bank Guarantee (PBG)	5% of the contract/ WO value discovered through tender process for this RFP
9.	Tender Availability	GeM portal and at the tender section of MoSPI website
10.	Date of publication of the RFP document	10.10.2025
11.	Pre-Bid Meeting	27.10.2025
12.	Bid validity	180 days from last date of submission of the bid.
13.	Bid submission	As per GeM bid requirement
14.	Last date of submission of queries	17.10.2025 by email at dd4.ssdiv@mospi.gov.in
15.	Language of bid	The bid should be submitted in English only
16.	Last date of submission of bid	10.11.2025
17.	Opening of Technical Bids	10.11.2025
18.	Technical Presentation, Opening of Financial Bids & Issue of Work Order	To be informed later
19.	Duration of Contract	(15 months of development + 21 months of O&M) The contract may be extendible for two years, one year at a time on mutual agreement, subject to the continuing requirement of MoSPI and mutual agreement between the parties. All extensions shall be based on satisfactory performance and aligned with the evolving needs of the project.

Note: Bidders are advised to regularly visit GeM Portal for updates regarding the RFP.

Key Definitions

1. Client means the Ministry of Statistics & Programme Implementation (MoSPI) who has invited bids for the project, with whom the selected Bidder signs the Contract for the Services and to whom the selected Bidder shall provide services as per the Terms and Conditions and Scope of Work of the contract.
2. Bidder means any entity registered under the relevant statute who have been invited to submit their proposals that may provide the Services to the Client under the Contract.
3. Day means calendar day.
4. Government means the Government of India.
5. LoI means the Letter of Intent issued by the Client to the selected bidder/Bidder.
6. Personnel mean professionals and support staff provided by the Bidder and assigned to perform the Services or any part thereof.
7. Proposal means the Technical Proposal and the Financial Proposal.
8. RFP means the Request for Proposal prepared by the Client for the selection of the Bidder.
9. Assignment/job means the work to be performed by the Bidder pursuant to the Contract.
10. Onsite means the office of Social Statistics Division, MoSPI, New Delhi.

Acronyms

AMC	Annual Maintenance Cost
BRICS	Brazil, Russia, India, China, and South Africa
CMS	Content Management System
DPIIT	Department for Promotion of Industry and Internal Trade
DQ	Data Quality
DR	Disaster Recovery
EMD	Earnest Money Deposit
FRS	Functional Requirement Specification
GeM	Government E Marketplace
GST	Goods and Service Tax
JSP	Joint Statistical Publication
MoSPI	Ministry of Statistics and Programme Implementation
MFA	Multi-Factor Authentication
NIC	National Industrial Classification
PBG	Performance Bank Guarantee
RBAC	Role based Access Controls
SRS	Software/System Requirement Specification
SSD	Social Statistics Division
SDG	Sustainable Development Goals
UAT	User Acceptance Testing
UT's	Union Territories
VAPT	Vulnerability Assessment and Penetration Testing

1. Organization Background

1.1. Introduction

Ministry of Statistics & Programme Implementation (MoSPI) works as an administrative body for the Government of India, which is responsible for collection, compilation and dissemination of statistics on Economic, Social and Demographic sectors.

MoSPI has two wings viz. the Statistics Wing and the Programme Implementation (PI) Wing. The Statistics Wing, called National Statistics Office (NSO), coordinates the statistical activities in the country and is responsible for evolving and laying down statistical standards. The activities of NSO inter alia include compilation of National Accounts, Index of Industrial Production, Consumer Price Indices for Urban/Rural/ Combined, Human Development Statistics, including Gender Statistics and Economic Census and imparting training in Official Statistics. NSO conducts National Sample Survey (NSS) activities through a subordinate office viz. Field Operations Division (FOD). NSO also assists in the development of statistics in the States and Union Territories and disseminates Energy Statistics, Social and Environmental Statistics, and prepares the National Industrial Classification. For publications, secondary data are being used and are sourced from various line Ministries/Departments (M/Ds) (more than 50 M/Ds). The division compiles and consolidates information available from various offices of Government of India on different social aspects and disseminates it as annual publications. For some indicators, data are available up to the State level. All reports are accessible on the MoSPI website.

The Social Statistics Division (SSD) comes under the National Statistics Office (NSO) of MoSPI. The details of the division are below: -

1.2. Social Statistics Division

The Social Statistics Division (SSD) of the National Statistics Office (NSO), under the Ministry is responsible for coordinating the development of social, environmental, and multi-domain statistics. SSD has three verticals namely (i) SDG Unit (ii) Environment Unit and (iii) Social and Welfare Statistics Unit. Further, the work of compilation of data for Annual Publication BRICS Joint Statistical Publication (JSP) is also entrusted with SSD.

Key Vertical-wise Responsibilities:

a) Sustainable Development Goals (SDG) Unit

The Ministry is entrusted with the development of indicator framework for Sustainable Development Goals (SDGs) to facilitate monitoring of SDGs at national level. The Social Statistics Division of NSO has developed a National Indicator Framework (NIF) for SDGs in alignment of Global Indicator Framework (GIF) with identified data sources and periodicity for facilitating the monitoring of the SDGs at national level. The framework is dynamic in nature and is reviewed and refined periodically. To provide a benchmark to track SDG progress at national level, MoSPI releases the Progress Reports with time series data on Sustainable Development Goals – National Indicator Framework annually. Presently, in SDGs NIF 2024, there are 290 national indicators with identified data sources and periodicity.

In this series, the Sustainable Development Goals – National Indicator Framework Progress Report is released annually on 29th June, on the occasion of Statistics Day, along with the following two handbooks which are part of the Progress Report:

- Data Snapshot on Sustainable Development Goals – National Indicator Framework, Progress Report
- Sustainable Development Goals – National Indicator Framework.

b) EnviStats India: Environment Accounts

The System Environmental Economic Accounting (SEEA) is the accepted international standard for environmental-economic accounting, providing a framework for organizing and presenting statistics on the environment and its relationship with the economy.

NSO, India regularly compiles environment accounts since 2018 following the SEEA framework and has carried out several accounts since then. In compliance to its mandate and in order to understand the linkages between the environment and the economy, till date NSO, India has released 7 issues of the annual publication on Environment Accounts titled "EnviStats India: Environment Accounts."

c) EnviStats India & Environment Statistics

The publication is based on Framework on Development of Environment Statistics (FDES 2013) prescribed by UNSD for compilation of environment statistics and provides information on the six fundamental components namely (i) Environmental Conditions and Quality; (ii) Environmental Resources and their use; (iii) Residuals (iv) Extreme Events and Disasters; (v) Human Settlements and Environmental Health; and (vi) Environment Protection, Management and Engagement. This publication is the seventh in the series. These provide data and insights describing the natural environment, its quality, and interactions with human activities. They are instrumental in evaluating environmental policies and measures for protection and sustainability.

d) Women & Men in India

The annual publication "Women and Men in India" provides gender disaggregated data on various socio-economic aspects including health, education, participation in economy, decision making, impediments in empowerment. Since 1995, the Women and Men in India report has been published annually, compiling gender statistics from various ministries and departments. Data is collected through emails in a tabular format (typically in Excel) for basic analysis and to generate data visualizations. Similar method is being followed in other publications also.

e) Ad-hoc publications

The Division also brings out ad-hoc publications viz. Children in India, Youth in India and Elderly in India which present and analyses the statistics on conditions of children, youth and elderly population. The Report 'Children in India' presents and analyses the statistics on the conditions of children on broad indicators such as child survival, child development and child protection, etc. covering demographic particulars such as status of child nutrition, health and education, children at work and situation of crime, etc. 'Youth in India' portrays overall status of youth through crucial statistical indicators of socio-economic relevance. The publication provides diverse profile of youth at State and Central level for various indicators on areas of population, health, education, economic participation and crime as derived from official data of different Ministries/Department/Organizations. The publication 'Elderly in India' provides insight about the status of elderly people focusing on areas of population and other vital statistics, economic, health and social status. "Persons with Disabilities (Divyangjan) in India- A Statistical Profile: 2021" provide a statistical profile of the person with disabilities based on Census of India and NSS round survey of Person with Disabilities.

f) Other Responsibilities

Work related to Disasters & Related Statistics, Geospatial Statistical Framework, National Data Bank, social statistics pertains to sectors like Population, Health, Labour & Employment, Migration, Social Protection, Culture and Tourism Statistics, Education, Housing Statistics, etc., matters related to SAARC Activities.

g) BRICS JSP

The publication has 15 Chapters. The first Chapter is a summary of the remaining 14 chapters, presenting general information with comparable statistics of the five countries, while the other 14 chapters reflect the different aspects of the past development and current status of the individual countries. In each of these 14 chapters, there are three components, summary table followed by country tables and methodological notes. The summary table present the most comparable information among the BRICS countries while the country tables show more detailed information specific to the individual countries Data for these chapters received from around 37 Ministries/departments. For example, for compilation of BRICS JSP, data for 10 years is required for around 300 indicators from 37 ministries/departments. Sometime any new indicator may be added for which fresh data has to be sought from concern source agency for the said period. Periodicity of data, line ministries and no. of indicators for which data is required are mostly fixed. Chapters are General Information, Economic and Social Indicators, Population, Labour Force, National Accounts, Price Indices, People's Living Standards, Resources and Environment, Industry, Energy, Agriculture, Forestry, Animal Husbandry and Fisheries, Transport, ICT, Finance, External Economic Relations, and Tourism.

h) Current Publications

Further, following reports are published by SSD:

Regular Publication:

- Sustainable Development Goals National Indicator Framework Progress Report
- Sustainable Development Goals - National Indicator Framework, 2025
- Data Snapshot on Sustainable Development Goals, National Indicator Framework Progress Report
- EnviStats India: Environment Accounts
- EnviStats India: Environment Statistics
- EnviStats India: Frequently Asked Questions
- EnviStats India: Glossary
- Women and Men in India
- Explainer series
- BRICS Joint Statistical Publication

Other Ad hoc publication:

- Children In India
- Youth in India
- Elderly in India
- Persons with Disabilities (Divyangjan) in India - A Statistical Profile: 2021

For these publications, secondary data are being used and are sourced from various line Ministries and Departments. The division compiles and consolidates information available from various offices of Government of India on different social aspects and disseminates it as annual publications. For some indicators, data are available up to the State level. All reports are accessible on the MoSPI website.

1.3. Objectives

- I. To create an integrated unified web portal and dashboard to improve the evidence-based decision making.

- II. To develop and deploy a dual-mode data ingestion system supporting manual data entry and automated API-based data retrieval with role-based access control via secure link-based interfaces.
- III. To develop the necessary APIs for the integration with distinct data sources.
- IV. To design and deploy automated report generation module for publishing digital statistical reports.
- V. To design and deploy virtual book module for publishing digital statistical reports.
- VI. To implement document management module to store, organize, and retrieve meeting related minutes.
- VII. To develop a customized visualization module integrated with GIS tools to display statistical data on maps and graphs.
- VIII. To merge SDG India Dashboard with SDG publication functionalities for the reporting purpose.
- IX. To deliver a fully integrated system encompassing all modules with end-to-end functionality.
- X. To develop a webpage and separate Link-based RBAC forms for the BRICS Chairmanship period, which will have to be prepared for the collection of the relevant statistical data from the BRICS members.

1.4. Expected Outcomes

This modernization will ensure scalable infrastructure and consistent system uptime for uninterrupted operations. It will help the division to have:

- I. Dashboard will be available to conduct various task as mentioned in the Scope of work.
- II. A more structured, timely, and efficient process because data owners will upload datasets in standardized formats, eliminating inconsistencies and manual formatting.
- III. Data accuracy and real-time availability will improve through secure APIs.
- IV. Automated workflows will enhance accuracy and enable faster, more reliable analysis.
- V. Simplified navigation of the unified web portal and dashboard will increase user engagement, and wider use of the portal's datasets.
- VI. Unified Web portal shall allow easy customization without any change in the source code of the application.
- VII. Dashboard should have the provision downloading the report of both single-click reports and customized automated reports in PDF, EXCEL, CSV, etc format.

2. Scope of Work

The Objective and scope of this RFP is to develop and maintain the unified web portal and dashboard of Social Statistics Division (MOSPI) that will provide the provision for centralize statistical data, replacing inefficient manual processes with automated data collection, processing, and visualization. It will provide interactive dashboards, analytics, virtual book and automated PDF report generation, improving data accessibility for policymakers, researchers, and the public.

The system will ensure secure role-based access, standardize reporting, and enhance transparency for publications/reports as mentioned in Chapter 1: Organisation Background (h). In addition, dashboard should have a feature of displaying data from multiple sources within SSD based on common indicators.

The following scope of work along with tentative module are expected from the Agency:

- Data acquisition mechanisms must include dual provisioning for both manual data entry, API-based data pulls, excel upload and Web Scrapping. This hybrid model will ensure flexibility, allowing real-time integration with external databases/systems while also enabling human entry where automation is not feasible. APIs must be well-

documented and secured with authentication protocols. The Agency must enable link-based and role-based data entry. This implies that designated users, based on their access privileges, should be able to receive secure links for data input with time-bound access and field-level restrictions. The platform must have a role management module supporting this function.

- Dashboard should cover all the indicators of the publication mentioned above in above publication / reports and should have the feature of customized data visualization, allowing geospatial/ maps-based representation of statistical indicators at different administrative levels (e.g., national, state, district). The report should have the option of producing historical comparisons for faster policy input.
- Certain features of the Dashboard(s) should be available on public domain.
- Dashboard should have the provision downloading the report of both single-click reports and customized automated reports in PDF, EXCEL, CSV, etc format.
- A consolidated SDG module for SDG related publications and portal has to be developed. Later, the existing SDG India dashboard and the SDG publication system will have to be merged. This integration must ensure that dynamic indicator (via dashboards) and formal publication formats are aligned and accessible in a unified interface. This will have feature of addition and deletion/disable of indicators as or when required by the MoSPI. The module should have a provision to link subnational indicators such as State Indicator Framework (SIF), District Indicator Framework (DIF), Panchayat level Indicators, etc.
- A separate module for Social Welfare Statistics and Environment Account are to be created covering all the publications.
- The Environment Account module, the data field is dynamic is nature and accounting subject (Ocean Account, forest account, water account, solid waste account urban account etc.) may change periodically. Hence the provision should be made accordingly during the O&M phase as well.
- Social Welfare Statistics contain publications/ reports such as EnviStats India: Environment Statistics, Women and Men in India, Children In India, Youth in India Elderly in India, Persons with Disabilities (Divyangjan) in India - A Statistical Profile: 2021 etc.
- A dedicated module for BRICS which will cover reporting for Annual Publication BRICS Joint Statistical Publication from various line Ministries.
- For the BRICS Chairmanship period, a separate webpage and link-based RBAC forms will have to be prepared for the collection of the relevant statistical data from the BRICS members. This page will facilitate data collection from member countries and representation of data.
- Each module will have reporting module. This module will cover respective publications as mentioned above. It should capture, consolidate, and present key performance metrics across all related indicators. It should support the inclusion of customized and automated table, maps, charts and graph generation and leverage predefined templates to maintain consistency and clarity. With a single click, the module should generate a formatted PDF, Word, Excel, etc. report, enabling seamless documentation.
- A dedicated Document Management Module will be developed to act as a central repository for meeting minutes, reports, decisions, and other official communications. This module should allow version control, tagging, full-text search, and access logs. It will support uploading of various file types and maintain archival for historical reference. In addition, the agency is expected to migrate the legacy data available in the form in excel file.
- The agency is expected to incorporate a Virtual Book module for the publications mentioned above. This feature must support export options (e.g. word/excel, PDF, HTML, etc.), search and navigation within content, and allow bookmarking or highlighting of important sections by users.

- The Admin Module will provide a user-friendly interface to manage all indicators efficiently. It will allow administrators to view, update, change the status or category of indicators through simple controls like toggles and dropdowns. An edit form will enable modification of key details such as the indicator, metadata with proper validations. The module will also support secure deletion of indicators with confirmation prompts and an option for soft delete. All actions will be tracked through audit logs and protected by role-based access control to ensure data integrity and security.
- Develop requirement specification document (FRS/SRS) should be finalised in consultation with MoSPI.
- Currently, the data is in local storage which needs to be shifted on the cloud storage. Therefore, Data Lake and Data Warehouse would have to be made by the vendor.
- To ensure seamless rollout, the Agency must propose and implement a module-wise Go-Live strategy in the technical proposal, prioritizing core functionalities and staggering the rollout based on readiness and stakeholder training. Each module should undergo UAT and approvals before being deployed to production.
- The MoSPI shall provide and maintain a Staging Server, replicating the production environment, for testing, training, and internal review. This will be in addition to the Production Server.
- System should undergo load testing and be capable of handling at least 5,000 concurrent users at a time.
- The selected agency shall be responsible for the end-to-end design, development, integration, implementation, and maintenance of a robust, scalable, and dashboard solution for MoSPI. The engagement will be delivered in two major phases over a multi-year period and shall include the use of open-source technologies,—stakeholder consultations, capacity building, and long-term support.
- All data and source code developed, processed, or acquired under this project shall be the exclusive property of MoSPI. The vendor shall not use, share, or retain any part of it beyond the project scope and must ensure secure handover to MoSPI upon request or project completion. MoSPI reserves the right to audit and access data and code repositories at any stage.
- At operation and maintenance phase, there should be annual support model with escalation matrix and workforce plan.

All system design and implementation activities, including documentation and stakeholder coordination, must be carried out in consultation of MoSPI. The scope of work is tentatively organized into the following key phases:

Phase I: Common Stages for each module for Unified Web Portal Development and Dashboard Implementation

Stage 1: Project Initiation & Requirement Finalization

- Conduct stakeholder consultations with MoSPI, concerned line Ministries, and Departments to gather and document functional and technical requirements.
- Assess and document existing systems, data sources, and formats to ensure seamless integration and interoperability.
- Finalize FRS & Software Requirements Specification (SRS) and identify external data sources for integration.
- System Architecture & UI/UX Design with wireframe.
- Define the overall system architecture, technology stack, and data flow design.
- Design and finalize database schema, APIs, and analytics components.
- Coordinate with data owners to facilitate API-based access or manual data upload workflows. Design data flow architecture accordingly.
- Develop and obtain approval for wireframes/UI/UX mockups, ensuring responsive layouts and bilingual (English & Hindi) support.

Stage 2: Core Platform Development

- Develop backend modules, centralized data repository, and user interfaces based on approved FRS/SRS
- Develop a robust CMS for content updates by SSD, MoSPI
- Development of centralized data repository by collecting data from various Ministries, State Governments, and other relevant stakeholders.
- Enable API integration and workflows for manual data uploads, including validation and transformation logic.
- Create configurable templates/forms for structured data submission.
- Report Generation

Stage 3: Analytics & Visualization

- Build core analytics features and interactive dashboards using suitable open-source libraries for a user-friendly dashboard with real-time visualizations, reports, publications and trend analyses.
- Define and visualize key performance indicators (KPIs) and trends, including GIS-based visualizations.
- Ensure Bilingual support and user-friendly visualization of insights.
- Dashboard should have a feature of displaying data from multiple sources used within SSD.

Stage 4: Testing, UAT, and Go-Live

- Compliance of GIGW and CERT-In compliant architecture.
- Ensure cross-browser compatibility and responsiveness across devices.
- Integrate Role-Based Access Control (RBAC), Multi-Factor Authentication (MFA), encrypted storage, audit trails, and version control.
- Conduct functional, performance, and security testing, including VAPT via CERT-In empanelled agency.
- Perform final User Acceptance Testing (UAT) and incorporate feedback.
- Finalize technical/user documentation and deliver training to stakeholders.
- Deploy the system in the production environment with necessary server hardening and security configurations from the cloud service provider of MOSPI. However, it will be cross-verified by the agency.

Phase II – Operations and Maintenance

Stage 5: Post-Go-Live Support & Maintenance

- Provide ongoing technical support, performance tuning, and issue resolution.
- Undertake system enhancements, including new dashboards, APIs, or analytical modules.
- Monitor system performance, ensure uptime, and perform scheduled upgrades and patch management.
- Maintain GIGW, CERT-In, STQC and accessibility compliance, and implement RBAC, MFA, audit trails, and encryption.
- Provide continued support for performance optimization and system enhancement.
- Monitor accuracy, update training datasets, and align with evolving analytical needs.

2.1. General Technical Requirement

The selected agency shall be responsible for developing a robust and scalable analytical dashboard with the following core technical features:

- **Data Management**

Enable collection, compilation, processing, and visualization of data from multiple MOSPI publications through API integration and manual data entry interfaces and other mentioned method is scope of work.

- **Automated Notifications**
Implement automated email reminders for data submission, with configurable workflows to update or change nodal contacts as required.
- **Data Validation & Scrutiny**
Incorporate automated data validation mechanisms, including trend analysis, error detection, and alerts to flag anomalies and facilitate timely corrections.
- **User Access Management & Security**
Integrate Role-Based Access Control (RBAC), Super Admin capabilities, MFA, secure data encryption, audit trails, and version control for secure and traceable data access.
- **Integration & Data Accessibility**
Ensure seamless integration through secure APIs with data interoperability.
- **Collaboration & Mobile Compatibility**
Facilitate user collaboration with real-time comments and discussion threads and ensure full responsive design across devices with provision for a mobile app in the future.
- **Bilingual Support**
Provide optional localization features to support Bilingual language access for broader user reach.
- **Visualization & Reporting**
Customizable dashboards and analytics-based reports for visualizing trends and insights including GIS-based visualizations along with export, download and sharing functionalities.
- **Advanced Analytics**
Deploy features including anomaly detection, predictive analytics, and smart recommendations to derive actionable insights.
- **Report Generation**
Ability to generate reports based on the project requirements.

2.2. Additional functional and technical capabilities

The selected agency shall also ensure the following additional functional and technical capabilities as part of the unified/integrated analytical dashboard development:

- **Deliverable**
Develop and deliver a cost-effective, interactive, and user-friendly web-based portal, designed to meet the needs of various user groups.
- **Content Management**
A robust Content Management System (CMS) must be provided to enable authorized users to manage and update content.
- **Design & Usability**
Implement a modern and intuitive user interface (UI) with prior approval of wireframes. The portal must support hierarchical navigation, responsive design, and allow static form printing for offline use.
- **Security Compliance**
The application must adhere strictly to the latest Cyber Security Guidelines and Advisories issued by competent authorities.
 - Ensure to obtain and maintain a security audit certificate as per CERT-In Guidelines.

- Maintain the servers and associated Operating System and other software with regular updates and patches as and when provided by the OEMs/data centre
- Removal of vulnerabilities as and when received from the competent authority.
- Ensure GIGW, STQC, and Security, Data and Accessibility guidelines and certification.
- **GOI Guidelines Compliance**
 - Compliance of website security in all aspects starting from design, coding, implementing, testing and deployment. Refer <https://guidelines.india.gov.in/security-guidelines-andattributes> for more details.
 - Ensure the website/ application is inclusive, user centric and friendly for differently abled.
 - Compliance of guidelines of STQC and GIGW. Refer to URL: <https://www.stqc.gov.in/website-quality-certification-0>. And URL: (<https://guidelines.india.gov.in/introduction/>)
 - Compliance to the National Data Sharing and Accessibility Policy (NDSAP), (Refer at <https://dst.gov.in/national-data-sharing-and-accessibility-policy-0./static/uploads/2024/06/2bf1f0e9f04e6fb4f8fef35e82c42aa5.pdf>)
 - DBIM Guidelines (Refer at <https://dbimtoolkit.digifootprint.gov.in/>)
- **Integration of Analytics**
Integrate analytics features to monitor user traffic, interaction patterns, and system performance metrics to support continuous improvement.
- **User Traffic Monitoring**
Tracking visits, session duration, and usage trends helps understand demand, plan capacity, and optimize popular features.
Example: If traffic doubles during certain hours, the system can be scaled to handle peak load smoothly.
- **Application Performance**
Monitoring page load times, response speeds, and error logs ensures that issues are identified and resolved before they affect many users.
Example: If analytics show frequent slowdowns on a particular module, developers can target fixes there.
- **Uptime and Availability**
Continuous tracking of uptime and downtime ensures high reliability and builds user trust.
Example: If uptime dips below a set SLA (say 99.9%), alerts can be triggered and corrective actions taken immediately.
- **Proactive Maintenance**
With real-time monitoring, potential failures or bottlenecks can be detected early, reducing the risk of service interruptions.
- **Continuous Improvement**
Combining usage patterns with performance data creates a feedback loop that helps refine the system iteratively, keeping it efficient and user-focused.
- **Technical Compliance**
Utilize stable, secure open-source or proprietary technologies like Java, React JS, Angular, MySQL, etc., ensuring compatibility across major operating systems and web browsers.

2.3. Training and Capacity Building

The agency will provide on-site training to the selected users as per the requirements of the division. During the training the agency will create batches for training. End users will be trained according to their functional area in the web application. The team will be provided complete understanding of the features, flow & functionalities on which they need to be proficient on a regular basis. The agency would be responsible for capacity building of all the stakeholders (including Ministry/ State Officials/ Teams and other stakeholders). The training materials in the form of:

- I. End-user training materials and user guides
- II. Admin manuals and operational SOPs
- III. Audio-Videos and interactive tutorials
- IV. FAQs and support documentation
- V. Workshop presentation decks and records

Note:- The Agency is expected to share the detailed Training & Capacity Building Plan with MoSPI for approval.

2.4. Adherence to SDLC and Agile Methodologies

The Selected Agency shall mandatorily adopt and adhere to a structured Software Development Life Cycle (SDLC) framework and implement Agile methodology for the execution of this assignment.

2.4.1. Software Development Life Cycle (SDLC) Compliance

The Agency shall ensure that all stages of the SDLC—namely, requirement analysis, system design, development, testing, deployment, and maintenance—are systematically followed and documented. Each stage shall be subject to review and approval by the Competent Authority before proceeding to the next phase.

2.4.2. Agile Methodology Implementation

The project shall follow Agile principles, preferably based on Scrum or a mutually agreed Agile framework, to enable iterative development, regular stakeholder feedback, and incremental delivery. Agile practices shall include:

- Sprint planning and definition of sprint backlog
- Conduct of daily stand-up meetings
- Sprint review and demonstration of completed functionalities.
- Sprint retrospective for continuous improvement
- Maintenance of a product backlog with prioritized user stories

2.4.3. Governance and Oversight

The Agency shall maintain detailed documentation and version control throughout the project lifecycle. Progress tracking tools (e.g., Jira or any other mutually accepted tool) shall be used and shared with the Competent Authority to ensure transparency and accountability.

2.4.4. Audit and Review

MOSPI reserves the right to audit, inspect, and review the implementation of SDLC and Agile practices at any stage of the project. Any deviation from the agreed methodologies shall be subject to corrective action, as directed by the Competent Authority.

2.4.5. Deliverables and Reporting

All project deliverables shall be submitted in alignment with the sprint cycles and SDLC stages. The Agency shall submit periodic reports including sprint progress, issue logs, risk registers, and release plans to the Client or its designated authority.

2.5. DevSecOps methodology

In addition, the Selected Agency shall mandatorily adopt and adhere to DevSecOps methodology. This methodology integrates security practices into every phase of the software development lifecycle (SDLC) to ensure that security is a shared responsibility across development, security, and operations teams. It emphasizes automation, collaboration, and "shifting security left" by incorporating security testing and practices early in the development process.

2.5.1. Integration of Security

Security is not treated as a separate phase but is embedded throughout the SDLC, from planning and design to coding, building, testing, and deployment.

2.5.2. Shift Left

Security activities are moved earlier in the development process, allowing for the identification and remediation of vulnerabilities during the development phase, rather than waiting until the testing or deployment phases.

2.5.3. Automation

Security automation is leveraged to streamline security processes and improve efficiency. This includes using tools for automated security testing, vulnerability scanning, and continuous monitoring.

2.5.4. Collaboration

Cross-functional teams (development, security, and operations) collaborate and communicate effectively to ensure a shared understanding of security requirements and responsibilities.

2.5.5. Continuous Security

Security is not a one-time event but an ongoing process. Continuous security monitoring, threat detection, and feedback loops are implemented to ensure that applications remain secure throughout their lifecycle.

3. Responsibilities of both parties

The following are the tentative responsibilities of both the parties:

The MoSPI shall:

- Appoint a Nodal Officer to oversee project progress.
- Facilitate timely approvals, access to legacy systems and stakeholder interactions.
- Ensure timely availability of infrastructure (workspace, connectivity, credentials, etc.).
- Provide feedback during requirement analysis, design reviews, UAT and training.
- Monitor project milestones and deliverables as per agreed timelines.

The responsibilities of the Selected Agency shall include:

- Conducting detailed requirement analysis, SRS preparation and obtaining signoffs.
- Designing, developing, testing, and deploying the proposed system modules.
- Ensuring timely migration and validation of legacy data.
- Providing training, documentation, and handholding support.
- Ensuring integration with national and state-level data systems.
- Maintaining strict adherence to security, confidentiality, and compliance standards.

- Addressing feedback received during UAT and ensuring system readiness.
- The agency will be providing Low Performance Report regarding UAT.
- Providing post-go-live support, managing change requests and SLA adherence.
- Regular reporting to MoSPI on progress, risks and mitigation strategies.
- Team has to be available onsite.

4. Cloud Infrastructure Provisioning

Cloud would be provided by the Data Informatics and Innovation Division (DIID) of MoSPI. The Agency would be responsible to access the cloud requirement and coordinate with both DIID and SSD on the matters related to cloud services.

5. Security Audit

The security audit process involves deployment of the application in a staging environment followed by a tool-based audit & manual audit in multiple iterations till all the vulnerabilities are removed. During the iterations, the developers will be required to address audit issues and rectify source code. The agency will be responsible for carrying out module wise security audit of the application through CERT-IN empanelled security auditors and submit Security Audit Certificate at the successful conclusion of audit after all vulnerabilities are fixed.

STQC Certification: To ensure compliance with the "Guidelines for Indian Government Websites" (GIGW) <https://guidelines.gov.in/> the India Portal 2.0 will also require STQC certification. The cost of certification will be as per actuals.

6. Technical Manpower Details of the project

The project is Deliverable/Milestone based and the table attached herewith shows the indicative manpower required to be deployed on the project. The resources should comply with the roles and responsibilities as mentioned below. The Key Resources should be deployed on the project (onsite) (Project Manager/ Solution Architect, Business Analyst and System Administrator) throughout the development phase. However, in O&M phase Project Manager/ Solution Architect, Full Stack Developer, and System Administrator will be onsite. The count of resources shall be in accordance with number of tasks being undertaken in parallel and as per the requirement in the respective phase of the project. The resources who will be deployed in O&M phase should be stationed at client location.

S.No.	Development Phase	Operation and Maintenance Phase
1	Project Manager/Solution Architect	Project Manager/Solution Architect
2	Business Analyst	Business Analyst
3	Full Stack Developer	Full Stack Developer
4	UI/UX Developer	UI/UX Developer
5	Tester/Quality Assurance Engineer	Tester/Quality Assurance Engineer
6	DevOps Engineer	N/A
7	System Administrator	System Administrator
8	Database Engineer	Database Engineer

Indicative Role and Responsibilities:

S.No.	Type of Resource	Educational Qualification	Role and Responsibilities
1.	Project Manager/Solution Architect	- B.E./B.Tech (CS/IT) with MTech/MBA(IT) and with 10+ Years of Exp. in Software Technology Implementation. - Managed at least 3 projects with the Central or State Govt., PSUs etc.	a) Managing projects related to Web portal. b) Oversee the development and implementation of all web portals and IT-related activities. c) Design and development, enhancements of applications related to schemes, and work assigned by the competent authority.
2	Business Analyst	B. Tech/ MCA/ B.E/ M.Sc. (in Computer Science/Information Technology/Statistical field) & MBA/Ph.D./PGDM/PGDBM and with 5+ years of experience in relevant field. - PGDM / PGDBM of 2 years duration will be considered.	a) Responsible for all inter division related activities but not limited to – Analysing the requirements of Ministry/Divisions to determine their technology needs. b) Hands on experience w.r.t. working on Statistical data. c) Preparing User Requirement Documents, functional requirement specifications (FRS) and Non-Functional requirement specifications (including, Security and Performance requirements). d) Developing Government procurement deliverables (e.g. RFP, DPR, etc.) and vendor contracts, end to end support in the procurement process. e) Define functional use cases for testing of the developed product. f) To track and monitor the progress of development cycle and suggest corrective actions, if any. g) Preparation of Meta Data for each data product/dataset. h) Prepare Test cases for User Acceptance Testing and Publish Test Reports & Participate in Test Automation using Industry Standard Tools. i) Provide Inputs to UI/UX Designer according to Requirements for Business

S.No.	Type of Resource	Educational Qualification	Role and Responsibilities
			Workflow and get it vetted from stakeholders.
3	Full Stack Developer,	• B. Tech/MCA/B.E./ M. Sc. (in Computer Science /Information Technology/related field) with 5+ years of experience in relevant field.	a) Hands on Development Experience in React.js, HTML, CSS and Frontend Technologies, Integration with APIs, Testing. b) Experience with Code Management Repository. c) Develop, maintain, and optimize server-side logic, databases, and APIs to ensure seamless data exchange between the server and users. d) Design and implement scalable, secure, and high-performance backend architecture. e) Write clean, reusable, and efficient code using backend technologies like Node.js, Python, Java, .NET, etc. f) Create and manage database systems (SQL/NoSQL), perform schema design, and ensure data integrity and security. g) Build and maintain RESTful or GraphQL APIs for integration with front-end applications and third-party services. h) Implement authentication, authorization, and data protection mechanisms (e.g., JWT, OAuth). i) Ensure proper integration of front-end elements built by UI developers with server-side logic. j) Monitor application performance and troubleshoot issues related to latency, memory leaks, and server errors. k) Collaborate with front-end developers, DevOps engineers, QA testers, and product teams for smooth project delivery. l) Conduct code reviews and provide constructive feedback to peers.

S.No.	Type of Resource	Educational Qualification	Role and Responsibilities
			m) Maintain documentation of system processes, APIs, and infrastructure for future reference. n) Implement caching, logging, and queuing mechanisms (e.g., Redis, RabbitMQ) for performance optimization. o) Ensure compliance with security, privacy, and regulatory requirements. p) Participate in the development lifecycle, including planning, development, deployment, and maintenance. q) Stay updated with emerging technologies and best practices in backend development.
4	UI/UX Developer	• B.E./B. Tech (CS/IT) or equivalent with 5+ Years of Exp. as a UI/UX Designer and Frontend Development. • Strong portfolio showcasing previous design projects, particularly for web portal. • Proficiency in design tools like Figma, Adobe Illustrator, and Photoshop. • Strong understanding of information architecture, interaction design, and visual design principles.	a) Hands on Development Experience in React.js, HTML, CSS and Frontend Technologies, Integration with APIs, Testing. b) Experience with Code Management Repository. c) Collaborate with the project manager and team to gather and evaluate user requirements. d) Illustrate design ideas through storyboards, process flows, and sitemaps. e) Design graphical user interface elements, including menus, tabs, and widgets. f) Create page navigation buttons and search fields to support an intuitive user experience. g) Develop UI mock ups and prototypes that clearly convey how sites will look and function. h) Present rough drafts to internal teams and key stakeholders. i) Conduct layout adjustments based on user feedback to enhance usability.

S.No.	Type of Resource	Educational Qualification	Role and Responsibilities
			j) Adhere to style standards on fonts, colours, and images to ensure consistency.
5	Software Tester/Quality Assurance Engineer	BE/BTech in Computer Science, Information Technology, Electronics & Communication with 5+ years of experience in a related field.	a) Develop and execute detailed test plans, test cases, and test scripts based on functional and technical specifications. b) Perform various types of testing including functional, regression, integration, system, performance, and user acceptance testing (UAT). c) Identify, document, and track bugs or defects using appropriate tools (e.g., JIRA, Bugzilla, TestRail). d) Collaborate closely with developers, business analysts, and other stakeholders to ensure quality standards are met across the development lifecycle. e) Ensure thorough testing of web portals across multiple devices, browsers, and platforms to validate responsiveness and compatibility. f) Automate test cases using standard testing frameworks and tools (e.g., Selenium, JUnit, TestNG, Postman for API testing) wherever applicable. g) Validate that all functional and non-functional requirements are met and ensure end-to-end system reliability. h) Participate in review meetings to provide QA inputs and contribute to continuous improvement in testing processes. i) Maintain detailed documentation of testing processes, results, and issue logs for audit and compliance purposes. j) Ensure adherence to security, data privacy, and accessibility

S.No.	Type of Resource	Educational Qualification	Role and Responsibilities
			guidelines during testing activities. k) Support deployment and post-deployment testing to validate production readiness and stability. l) Stay updated on industry best practices and evolving testing methodologies and tools.
6	DevOps Engineer	• BTech/BE (Computer Science, Information Technology, Electronics, or related field.) • Minimum 5 years of experience in DevOps, system integration, CI/CD pipelines, and infrastructure automation.	a) Design and manage CI/CD pipelines for automated and reliable deployments. b) Set up, deploy and maintain development, testing, staging, and production environments. c) Implement infrastructure automation using tools like Python, Jenkins, Ansible, Terraform, or similar. d) Ensure secure deployment practices and compliance with required standards. e) Provide deployment support during UAT and go-live, including rollback and recovery mechanisms.
7	System Administrator	• BE/BTech/BCA in Computer Science, Information Technology, Electronics, or a related field. • Minimum 5 years of experience as System Administrator.	a) Install, configure, and maintain servers (Windows/Linux) and system software to ensure optimal performance. b) Monitor system health, performance, and resource utilization; proactively resolve bottlenecks and outages. c) Manage user accounts, access controls, roles, and permissions in line with organizational policies. d) Perform routine backups and restoration to ensure business continuity and data integrity. e) Apply operating system patches, updates, and configuration changes in a timely manner. f) Implement and manage security tools (firewalls,

S.No.	Type of Resource	Educational Qualification	Role and Responsibilities
			antivirus, intrusion detection systems) to safeguard systems. g) Troubleshoot hardware, software, and network-related issues to minimize downtime. h) Maintain network services including DNS, DHCP, FTP, HTTP, and email services. i) Ensure high availability, disaster recovery planning, and failover configurations for critical systems. j) Create and maintain detailed documentation of systems, configurations, and procedures. k) Support and manage virtualization platforms (e.g., VMware, Hyper-V) and cloud infrastructure as applicable. l) Coordinate with software vendors, OEMs, and third-party service providers for system upgrades and support. m) Monitor and enforce IT policies, data security guidelines, and compliance requirements (ISO, ITIL, etc.). n) Configure and manage enterprise tools such as Active Directory, Group Policy, and SCCM. o) Assist development and operations teams in deploying and maintaining environments for testing and production.
8	Database Engineer	- Bachelor's degree in computer science, Information Technology, Electronics, or a related field (B.E./B.Tech/B.Sc/BCA). - Minimum 5 years of experience as Database Engineer.	a) Design, develop, and maintain relational and non-relational database systems to ensure high performance and reliability. b) Create and optimize database schemas, tables, views, stored procedures, functions, and indexing strategies.

S.No.	Type of Resource	Educational Qualification	Role and Responsibilities
			c) Ensure data integrity, consistency, and security across all environments. d) Monitor database performance and implement tuning techniques to improve query execution and reduce response times. e) Plan and implement backup and recovery solutions to ensure business continuity and minimize data loss. f) Manage database access controls, roles, and permissions as per organizational policies. g) Work closely with developers and application teams to support data modeling and integration requirements. h) Implement and manage data replication, clustering, and high-availability configurations. i) Migrate databases across platforms and environments (on-premises to cloud or between cloud providers). j) Automate routine database tasks using scripting languages like Python, Shell, or PowerShell. k) Ensure compliance with data governance, privacy laws, and regulatory standards (e.g., GDPR, HIPAA). l) Troubleshoot and resolve database-related issues such as performance bottlenecks, deadlocks, and failures. m) Maintain comprehensive documentation of database architectures, configurations, and standard operating procedures. n) Conduct regular audits and vulnerability assessments to ensure database security. o) Stay updated with the latest trends, tools, and technologies

S.No.	Type of Resource	Educational Qualification	Role and Responsibilities
			in database engineering and data infrastructure.

Note:

- The Key Resources (Project Manager/ Solution Architect, Business Analyst and System Administrator) shall be stationed full-time in the development phase and shall be responsible for continuous coordination, requirement gathering, review facilitation, and day-to-day communication with MoSPI & other stakeholders and responsible for successful project rollout.
- MoSPI (at any given time can ask for replacement /substitution of above-mentioned resource) by giving one month notice or immediate in case of misconduct.
- Apart from the above, all other necessary human resources—such as developers, UI/UX designers, testers, data engineers, etc. required to deliver the project as per the defined scope and timelines shall be managed, staffed, and coordinated by the selected agency. The agency is expected to make their own assessment of the resource effort required and factor the same comprehensively into their financial quote.

7. Indicative Deliverables, Milestones, Timelines, and Payment Terms

Total time for the Development & Maintenance shall be the entire duration of the project as per the milestones as under:

Milestones	Timelines	Payment Terms
Phase I: Unified Portal Development and Dashboard Implementation		
Milestone 1: - Requirement Gathering - Preparation of Requirement Specific Documents (FRS/SRS) - Design and document the system and data architecture Setup of cloud infrastructure - Procurement of staging server from MoSPI - Development of Data Ingestion Module - Migration of Legacy Data - UAT and Go-Live of the Data Ingestion Module	4 months	20% of the Phase 1 amount
Milestone 2: - Development of customized dashboards along with customized visualization for all publications. - Development of Content Management Module - Implementation of Report Generation Module - UAT and Security Audit - Go-Live of the above modules	4 months	25% of the Phase 1 amount
Milestone 3: - Implementation of Document Management Module. - Development of Virtual Book Module - UAT and Security Audit - Go-Live of the above modules	4 months	25% of the Phase 1 amount
Milestone 4: - Implementation of Admin module - Full system integration - End-to-end testing and UAT - User Training - Security Audit - Final Go-Live of the Unified Portal	3 months	30% of the Phase 1 amount
Phase II: Operations and Maintenance	21 months	Quarterly Payments

Note:

- The agency shall be responsible for the deployment, stabilization, and maintenance of all software modules until the final Go-Live. The formal Operations & Maintenance (O&M) phase shall commence only upon final Go-Live, after which the Bidder shall provide support and maintenance services as per the agreed O&M terms.
- This is to be noted that the security audit of the phase-wise Modules and the fully developed system will be undertaken through Cert-In empanelled agencies, all the

finding, necessary compliances and gaps found in the audit will be addressed by the Agency as per the agreed timelines and without any additional cost to MoSPI.

- Deliverables of each module will be explained in FRS.
- UAT shall comprise of the functional and Non-functional aspects of the deliverables.
- Payment would be made in Indian Rupees, on a milestone basis.
- Selected BIDDER shall have to submit a self-certificate on completion of each milestone stating that "they have completed the milestone in line with the RFP specified terms & conditions."
- Permissible service levels and applicable penalties are defined in SLA.
- All payments are subject to deduction of applicable tax and service levels, and penalties, if any.
- No interest/charges will be paid on delayed payments.
- Any customization and changes in logic identified during the various stages of the project will not be considered as a change request and needs to be incorporated in the final delivery.
- The MoSPI may withhold part of the payment (not more than 20% of the payment due), the amount withheld shall be released, provided the shortfall in deliverables is fulfilled within the stipulated period prescribed by MoSPI.
- The committee constituted by MoSPI would be reviewing the quality of deliverables by the selected vendor on completion of each milestone and ascertain its completeness. This committee would be constituted for a period of 5 years and monitor the progress in this engagement.
- No TA/DA would be provided by MoSPI regarding travel requirement for implementation/support of the project within India and the same has to be borne by the selected bidder itself.
- In case of advance payment, if any, the same will be made against the Bank Guarantee of the equivalent amount.
- Selected Bidder is required to pay Salaries/wages of staff deployed at the client location. HR to provide undertaking on monthly basis for staff deployed at client location during the O&M phase.

Additional Note: Sign off and Approval from MoSPI based on the following for all Milestones

Activities	Acceptance criteria
Requirement Gathering	a. FRS and SRS report (covering all units at SSD) b. Use Cases c. Exit Management Report
Preparation of FRS and SRS Documents	
Testing / UAT (User Acceptance Testing)	a. Demonstration of Data Ingestion, Public Dashboard, and User Management Dashboard (Wire framework and Mock-ups) b. Report on Data Migration & Database Design c. Test Cases d. Audit Reports
Module wise Security Audit & Go-Live	a. Demonstration of Data Ingestion, Public Dashboard, and User Management Dashboard b. Report on Data Migration & Database Design c. Audit Reports
Operation & Maintenance Stage	a. O&M Reports b. SLA Reports (System Generated)

	c. Quarterly Performance Reports
Security Audit & Final Go-Live	a. UAT Testing Report (Portal and Analytics) b. Deployment Report with requisite documentation c. Demo of Deployment & Integration of Helpdesk support system and Ticketing as well as Escalation Mechanism for issue reporting d. Demonstration of Data Ingestion Dashboard and User Management Dashboard. e. Report on Data Migration & Database Design (Wire framework and Mock-ups) f. Audit Reports

8. Pre-Qualification Criteria

The Bid will be evaluated on each criterion mentioned in this document and satisfy itself beyond doubt on the Bidder's ability/ position to meet the criteria. Those Bidders who qualify on all the criteria as brought out in the table below will only be considered for technical evaluation. Those Bidders who do not qualify for pre-qualification will not be considered for any further processing. Bidders who are meeting all the eligibility criteria respond to this RFP. The bidder shall submit self-assessed compliance to Pre-Qualification criteria checklist prescribed in Appendix - 1. Bids not conforming to any of the minimum eligibility criteria shall be out rightly rejected. MoSPI may ask bidder(s) for additional information to verify claims made in their eligibility document, at any point of time before opening of the technical bid. Evaluation of eligibility criteria will be as per the information/ response provided by the bidder and the supporting documents as mentioned in the RFP:

S.no.	Parameter	Pre-qualification criteria description	Supporting document
1.	Cover Letter	Cover letter of the bid with valid authorization details of the person(s) signing the bid document as on date of bid submission	a) Cover letter signed by an authorized signatory of the bidder as per <u>Form 1 in Appendix-2</u> . b) Power of Attorney (PoA) on Non-Judicial stamp paper of Min Value of Rs. 100/- in the name of authorized signatory as per <u>Form 2 of Appendix-2</u> . OR c) Certified copy of Board Resolution (BR)
2.	Legal Entity	a) The bidder must be any private/public limited company or limited liability partnership or partnership firm or autonomous body or organization or society or any other institution registered/incorporated under relevant statute. b) The bidder should be in existence for minimum 5 years, as on due date of RFP. c) The bidder(s) must have Income Tax Registration (PAN) and GST Registration. d) Consortium/ Joint Venture/ Individuals are not allowed.	a) Certificate of Incorporation/ registration (<u>Form 3 of Appendix 2</u>) b) Letter from Company Secretary/ Statutory Auditor for operating business for last 5 years as on date of bid submission. c) Copy of PAN Card & GST registration certificate

3.	Turnover	The bidder should have an average annual turnover of at least INR 20 Crores in the last 3 audited financial years. (FY 2021-22, 2022-23 & 2023-24). The turnover should be from IT Solution/software application development & implementation. Note: Turnover of only the bidding entity will be considered. The Turnover of any parent, subsidiary, associated or other related entity will not be considered.	a) A certificate duly certified by the Statutory Auditor of the bidder mentioning the average annual audited turnover from IT Solution/ software application development & implementation in the last 3 audited financial years (FY 2021-22, 2022-23 & 2023-24). (<u>Use Form 4 in Appendix 2</u>) b) Copy of audited Balance Sheets and Profit & Loss Statements for the last 3 financial years (FY 2021-22, 2022-23 & 2023-24) duly certified by statutory auditor
4.	Project Experience	The bidder should have experience of successfully completed or currently executing the similar projects related to development, implementation of software solution/ creation of dashboards/ process automation/ Data Pipeline and database management/ Data warehouse/ Data Lake for Central Ministries / Departments / State Governments / UT Administrations/ Public Sector Enterprises/ Undertakings/ Banks/ Government Autonomous bodies. (Projects completed in the last 5 audited financial years starting from FY 2019-20 onwards will only be considered). At least two (02) similar projects each of INR 3 crores or more.	a) Details of the assignments as per <u>Form 5 of Appendix 2</u>. b) Copy of work order/ Contract Agreement c) Completion/performance Certificate from client containing project value completed by the bidder. d) In case of non-availability of completion/performance certificate from client, the certificate regarding proof of timely /regular payments received against the rendered services duly certified by CA and authorized signatory.
5.	Technical Manpower Strength	The bidder should have in its rolls, a staff of at least 100 technically qualified (B.E. /B.Tech./ M.Tech.(CS/IT)/ MCA/	a) An undertaking / self-declaration as per the <u>Form 9 of Appendix 2</u>, duly signed (with Organization

		MBA (IT)/ M.Sc. (CS/IT)) personnel with relevant experienced in IT solutions, Development, Implementation, Maintenance & Management skills as well as physical/cloud infrastructure management & maintenance	seal), by the HR, Head of the Organization b) Copy of EPF Combined challan for the month of June 25, or latest.
6.	Proposed Key Resources	The Bidder must have at least 2 proposed key personnel i.e., Project Manager/Solution Architect, Business Analyst and System Administrator and should have been with the bidder for at least 3 months (from the last day of submission of bid). The details of minimum educational qualifications and experience are as under: a) Project Manager/Solution Architect: - o B.E./B.Tech. (CS/IT) and M.Tech.(CS/IT)/ MCA/MBA (IT)/ M.Sc. (CS/IT) with minimum 10 Years of Exp. in Software Technology Implementation. - o Managed at least 3 projects with the Central or State Govt., PSUs. b) Business Analyst: B.E./ B.Tech. (CS/IT)/ MCA/ M.Tech. (Cs/IT)/ M.Sc. (CS/IT) with minimum of 5 years of experience. c) System Administrator B.E./ B.Tech. (CS/IT)/ MCA/ M.Tech. (Cs/IT)/ M.Sc. (CS/IT) with minimum of 5 years of experience in managing Windows/Linux system, virtualization, networking, and cloud platforms.	CVs of key personnel with relevant Educational <u>Form 6 of Appendix 2</u>. Qualification and details of the required resource (Qualification & Experience) should be certified through an undertaking by the bidder to MoSPI at the time of proposal submission, certifying the deployment and availability of the proposed resources. Copies of relevant education Qualification/certifications

7.	Certifications	The Bidder must have following certifications: a) CMMI L3 or above b) 27001:2015	Copy of valid certificates duly authenticated by authorized signatory as on date of bid submission.
8.	Non-Blacklisting	The Bidder must not have been blacklisted (as on bid submission date) by any Central Ministries / Departments/State Governments / UT Administrations / PSUs / PSBs and government autonomous bodies. The Bidder should not have been debarred (as on bid submission date) from dealing with any company/public department in the last three years as on due date of RFP	Certificate duly signed by authorized signatory of the bidder on a non-judicial stamp paper (100 Rupees) and duly notarized by a Notary (<u>Form 7 of Appendix 2</u>)
9.	Pre-contract integrity pact/ NDA	Bidder has to submit non-disclosure agreement in the technical bid duly signed by Authorised signatory	Non-disclosure agreement in the format prescribed in (<u>Form 8 of Appendix 2</u>)

Additional Notes:

Note 1: Projects limited to hardware supply, AMC, or software product resale will not be considered for experience or turnover.

Note 2: Only those bidders fulfilling the above Pre-Qualification/Eligibility Criteria will be considered for further technical evaluation.

9. Technical Qualification

The bidder shall submit self-assessed compliance to Technical Qualification criteria checklist prescribed in Appendix - 1.

#	Criteria	Parameter	Supporting Documents	Max Marks
1	The bidder should have in its rolls, a staff of at least 100 technically qualified (B.E./B.Tech./ M.Tech.(CS/IT)/ MCA/ MBA (IT)/ M.Sc. (CS/IT)) personnel with relevant experienced in IT solutions, Development, Implementation, Maintenance & Management skills as well as physical/cloud infrastructure management & maintenance.	No of technical resources a) Equal to or more than 100 and less than 150: 05 marks b) Equal to or more than 150 and less than 200: 10 marks c) More than 200: 15 marks	a) An undertaking / self-declaration as per the <u>Form 9 of Appendix 2</u> of this RFP, duly signed (with Organization seal), by the HR, Head of the Organization b) Copy of EPF Combined challan for the month of June 25, or latest.	15
2	The bidder should have an average annual turnover of at least INR 20 Crores in the last 3 audited financial years. (FY 2021-22, 2022-23 & 2023-24). The turnover should be from IT Solution/ software application development & implementation.	a) Turnover equal to or more than 20 Crores and less than 25 Crores: 05 marks b) Turnover equal to or more than 25 Crores and less than 30 Crores: 10 marks c) Turnover Equal to or more than 30 Crores: 15 marks	a) A certificate duly certified by the Statutory Auditor of the bidder mentioning the average annual audited turnover from IT Solution/ software application development & implementation in the last 3 audited financial years (FY 2021-22, 2022-23 & 2023-24). (<u>Use Form 4 in Appendix 2</u>) b) Copy of audited Balance Sheets and Profit & Loss Statements for the last 3	15

			financial years (FY 2021-22, 2022-23 & 2023-24) duly certified by statutory auditor	
3	The bidder should have experience of successfully completed or currently executing the similar projects related to development, implementation of software solution/ creation of dashboards/ process automation/ Data Pipeline and database management/ Data warehouse/ Data Lake for Central Ministries / Departments / State Governments / UT Administrations/ Public Sector Enterprises/ Undertakings/ Banks/ Government Autonomous bodies. (Projects completed in the last 5 audited financial years starting from FY 2019-20 onwards will only be considered).	a) Two (02) projects, each of value 3 crores or more = 15 marks b) For each additional similar project of value 3 crore or more: 7.5 marks up-to maximum 30 marks.	a) Details of the assignments as per <u>Form 5 of Appendix 2</u> b) Copy of work order/ Contract Agreement a) Completion/performance Certificate from client containing project value completed/executed by the bidder. b) In case of non-availability of completion/performance certificate from client, the certificate regarding proof of timely /regular payments received against the rendered services duly certified by CA and authorized signatory.	30
4	Year of commercial operation: (To be counted as no. of completed years as on due date of RFP)	i. No. of completed years: equal to or more than 5 years and less than 7 years = 2 marks ii. No. of completed years: equal to or more than 7 years and less than 10 years = 5 marks iii. No. of completed years: 10 years and	Relevant valid certificates. (Incorporation/ Registration)	10

		more = 10 marks		
5	Certification	CMMi Dev Level 3 and ISO 27001:2015: 5 marks CMMi Dev Level 4 and ISO 27001:2015: 7 marks CMMi Dev Level 5 and ISO 27001:2015: 10 marks	Copy of valid certification	10
6	Assessment of the capacity. The proposed plan/model of the bidder for undertaking the work with due justification of resource deployment and action plan for completion of the project by target dates. (Based on comprehensive information given in the Scope and other detailed action plan)	Agencies will be called for a technical presentation (offline).	Scoring will be done based on: - Understanding /Conceptualization of the project. - Approach & Methodology, deployment plan. - Proposed CVs of all the resources	20

10. Evaluation Criteria

10.1. Technical Bid Evaluation

- Depending on the evaluation criteria mentioned, each Technical Bid will be assigned a technical score out of a maximum of 100 Marks.
- Only the bidders who score a technical score of at least 70 marks out of 100 marks in the technical evaluation will qualify for the financial bid evaluation.
- The score of the bidder who secures the highest Technical Score will be taken as 100 and the Scores of other bidders will be normalized using the following formula:

$$T = 100 * (T_0 / T_1)$$

T₀: score obtained by the bidder.

T₁: maximum score in technical evaluation obtained by any bidder.

10.2. Financial Bid Evaluation

The financial bids of only those bidders will be opened who qualify the technical evaluation stage and will be considered for financial bid opening.

Each bidder will be given a Normalized Financial Score (F) as per below mentioned formula:

$$F = 100 \times (F_m / F_b)$$

Fm is lowest financial quote among all technically qualified bids.
Fb is financial quote by the bidder being evaluated.

10.3. Evaluation Process

- a) MoSPI will constitute a Technical Evaluation Committee (TEC) to evaluate the responses of the Bidders. The Committee shall evaluate the responses to the RFP and all supporting documents / documentary evidence. Inability to submit requisite supporting documents / documentary evidence, may lead to rejection.
- b) Technical bids thus opened will be evaluated by MoSPI subsequently.
- c) In the event of the specified date of bid opening being declared a holiday for MoSPI, the bids shall be opened at the appointed time and location on the next working day.
- d) The decision of the Committee on the evaluation of responses to the RFP shall be final.
- e) MoSPI may seek clarifications from the Bidder on the Technical & Financial Proposal.

During evaluation of bids, MoSPI may, at its discretion, ask the bidder for a clarification of its bid. The request for clarification and the response shall be made in writing through GeM. If the response to the clarification is not received before the expiration of the deadline prescribed in the request, MoSPI reserves the right to evaluate bids based on available documents which may also lead to rejection of the bid.

10.4. Negotiation

The bid of the highest acceptable responsive bidder (H1) should normally be accepted. However, if the price offered by that bidder is not acceptable, negotiation may be held only with H1 bidder.

10.5. Method of Selection

- a) For final selection of the bidder, the technical qualified bid will be given a weightage of 70% based on criteria for evaluation. The price bids of only those bidders who qualify technically will be opened.
- b) The financial bid shall be allocated a weightage of 30%. For working out the combined score, following formula will be used as per GeM:

$$\text{Total Score (H)} = (0.7 \times T) + (0.3 \times F)$$

Here,

T stands for technical score and

F stands for Financial Score

The bids will be ranked in terms of total Score. The bid with the highest total Score will be considered for the award of the contract.

Note:

- a) If a bidder quotes NIL charges/consideration, the bid shall be treated as non-responsive and will not be considered.
- b) The bid price will include all taxes and levies and shall be in Indian Rupees as per GeM.
- c) Any conditional bid would be rejected.
- d) MoSPI will determine whether the financial bids are complete and unconditional.

10.6. Award of Contract

The bid will be awarded as per the Bid Evaluation methodology. MoSPI reserves the right to accept or reject any bid and to annul the bidding process and reject all bids at any time

without incurring any liability to the affected bidder or bidders, with or without assigning any reason.

Notification to Bidder: Before the expiry of the period of validity of the bid, MoSPI shall notify the successful bidder in writing by registered letter or by e-mail or by fax, that its bid has been accepted. The bidder shall acknowledge in writing the receipt of the notification of award to MoSPI. The date and time for the same shall be notified to the bidder in writing by MoSPI.

Signing/Issue of Contract/Work order: The contract/work order shall be signed on all the pages by the person(s) duly authorized to bind the successful bidder to the contract/ work order. The stamp of the organization shall also be affixed on each page of the contract/ work order. MoSPI may discuss certain terms with the successful bidder before signing/ issuing the contract/ work order.

Expenses for the Contract/ Work order: The incidental expenses of execution of agreement / contract/ work order shall be borne by the selected bidder.

Failure to Abide by the Contract/ Work order: The conditions stipulated in the contract/ work order shall be strictly adhered to and violation of any of these conditions will entail termination of the contract/ work order without prejudice to the rights of MoSPI to impose penalties as specified in the bidding document and the contract/ work order

10.7. Termination of Contract

- a) MoSPI reserves the right to suspend any of the services and/or terminate the agreement/contract in one or more of the following circumstances by giving 30 days' notice in writing:
 - i) In case, the overall penalty/deduction for the selected bidder exceeds 10% of the contract value.
 - ii) The selected bidder has failed to commence the Services as per the timelines of the RFP.
 - iii) If staffing personnel and/or services as per the scope of work under the contract with MoSPI is not found un-acceptable by MoSPI.
- b) Termination for Insolvency, Dissolution etc.:

MoSPI may at any time terminate the contract by giving written notice to the selected bidder without compensation to the selected bidder, if the selected bidder becomes bankrupt or otherwise insolvent or in case of dissolution of firm or winding up of company, provided that such termination will not prejudice or effect any right of action or remedy which has accrued thereafter to MoSPI.
- c) Termination for Default:

MoSPI may without prejudice to any other remedy for breach of contract, (including forfeiture of security deposit, Performance Bank Guarantee) by written notice of default sent to the selected bidder, terminate the contract in whole or in part after sending a notice to the bidder in this regard.

 - i) If the bidder fails to accept the Work Order(s).
 - ii) If the bidder fails to deliver services within the time-period specified in the Work Orders or during any extension thereof granted by MoSPI.
 - iii) If the bidder fails to meet any other terms and conditions under the contract.
- d) Termination for Convenience:

MoSPI may by written notice, sent to the selected bidder, terminate the work order and/or the Contract, in whole or in part at any time of its convenience. The notice of termination will specify that termination is for MoSPI's convenience, the extent to which performance of work under the work-order and/or the contract is terminated and the date upon which

such termination becomes effective. MoSPI reserves the right to cancel the remaining part and pay to the selected bidder an agreed amount for partially completed Services.

- e) The selected bidder has neglected or failed to observe and perform all or any of the term's acts, matters or things under this Contract to be observed and performed by it. The selected bidder has acted in any manner to the detrimental interest, reputation, dignity.
- f) In the event the selected bidder exits the project before completion or fails to deliver the agreed scope of work as per the contract without valid justification accepted by the client.
 - i) Forfeit the Performance Bank Guarantee (PBG) or any other security deposit submitted by the vendor
 - ii) Initiate legal proceedings or arbitration as per the dispute resolution clause.

11. Service Level Agreement (SLA)

11.1. SLA Monitoring Tool

The selected bidder will provide an SLA Monitoring Tool (SMT) that provides end-to-end monitoring and management of the project's IT environment. The SMT must cover all infrastructure, applications, and automation platforms deployed under this engagement. In practice, this means the system will collect real-time data and alarms across servers, networks, storage, virtualization layers, containers, and cloud integrations to ensure availability and performance.

11.2. Infrastructure and Platform Monitoring

The SMT shall continuously monitor infrastructure components. This includes network devices, storage systems, hypervisors, container hosts, and cloud services. Monitoring involves collecting health and usage metrics (CPU, memory, disk, I/O, network, etc.) and logs from all these elements. By correlating these metrics, the SMT shall detect and alert on hardware faults, capacity bottlenecks, or network outages in real time, thereby minimizing downtime and supporting SLA compliance.

11.3. Application Performance Monitoring (APM)

The SMT tool must include application performance monitoring capabilities. Specifically, it should track key app-level metrics such as transaction throughput, response time, error rates, and utilization for each critical application and service. If the application's response time exceeds a set threshold or the error rate spikes, the SMT should generate an alert. This allows the team to rapidly diagnose issues (for example, slow database queries or service outages) before end users are affected.

11.4. Dashboards and Compliance Reporting

The SMT shall provide live dashboards and reporting interfaces. In addition to live monitoring, the tool must support scheduled compliance reporting. For example, it should generate periodic (e.g. monthly) reports summarizing SLA compliance, availability statistics, incident counts, and any violations. Automated dashboards and reports help improve operational efficiency and transparency. Importantly, all raw monitoring data behind these reports should be exportable so that auditors can independently verify the results.

11.5. Audit Trails and Compliance

All monitoring activities must be fully auditable. The SMT should maintain secure audit logs of user actions and system events (configuration changes, threshold edits, alert acknowledgments, etc.). The selected bidder must ensure that the department has unrestricted access to all audit logs and raw monitoring data for the entire retention period.

Robust audit trails provide the organization with proof that no alerts or monitoring data were tampered with during the process.

11.6. Service Level Monitoring

This section defines Service Level Agreement (SLA) on various indicators, which will be considered by MoSPI for monitoring Service Level of the selected Bidder. The selected Bidder has to comply with defined Service Levels to ensure adherence to project timelines, quality and availability of services. Commencement of activities for MoSPI, shall be as per timelines and parameters stipulated by MoSPI in this RFP, failing which MoSPI may, at its discretion, impose penalties on the bidder as per the SLAs mentioned in this RFP. The purpose of this section is to clearly define the levels of service to be provided by the selected Bidder to MoSPI for the duration of this project or until this SLA has been amended. This SLA shall be part of the agreement between the Bidder and the client. The SMT must automatically track SLA metrics and produce compliance reports. The tool should measure each metric continuously and generate real-time alerts whenever a metric breaches its target. An automated SLA monitoring tool should be deployed by the Bidder and access to be provided to MoSPI officials for monitoring purpose. The SMT should log every SLA violation and integrate them into reports. It must produce monthly SLA compliance reports for the department (and auditors), detailing actual uptime and performance versus targets, and include the raw monitoring data. The service level monitoring would be applicable during the entire course of the contract. MoSPI will frequently review the Service Levels and will have a discretion to amend the same.

11.7. SLA Specific Definitions:

- a) **Critical Time (CT):** This refers to the critical time period i.e, 06:00 hrs. to 23:59 hrs. where the concurrency is expected to be higher in comparison to the non-critical time period i.e., 00.00 hrs. to 05:59 hrs.
- b) **Non-Critical Time (NCT):** This refers to the non-critical time period i.e. 00:00 hrs. to 05:59 hrs. and the concurrency of registration may not be as high as critical period.
- c) **Uptime:** Uptime means, the aggregate number of hours in any specified time during which application/ and/or infrastructure is actually available for use.
$$\text{Uptime} = \{1 - [(\text{System Downtime}) / (\text{Total Time} - \text{Planned Maintenance Time})]\} * 100$$
- d) **Downtime/Outages:** Time period for which the specified services/ components /outcomes are not available in the concerned period, being considered for evaluation of SLA, which would exclude downtime owing to Force Majeure.
- e) **Scheduled Maintenance Time:** Pre-defined time period during which the specified services/components with specified technical and service standards will not be available due to scheduled maintenance activity. The selected Bidder is required to take at least 10 days prior approval from the designated authority for any such activity. The scheduled maintenance should be carried out during non-peak hours (like post mid-night and should not be for more than 2-4 hours and such planned downtime would be granted max 4 times in a year).
- f) **Denial of service:** For a given quarter during the O&M phase, if the total penalty amount is more than the amount due for that quarter, the same shall be considered as denial of service and in such a situation; client has the right to terminate the contract besides any other action as per the provisions of the contract.
- g) **Incident:** Incident refers to any event/abnormalities in the functioning of the application and/or infrastructure that may lead to disruption in normal operations of the MoSPI system application.

11.8. Helpdesk and Issue management related SLAs:

The Issue management support with the help of ticketing system must ensure that the issues need to be handled at the earliest. Any delay of the same will have applicable penalty and may also lead to termination of contract.

Helpdesk and Issue management related SLA criteria			
S. No	Parameter	SLA	Deduction/Penalty
1.	Availability of ticketing issues/ complaints/ observations	As per decided timeline in this RFP	Nil
		Delay of every week beyond decided timeline	0.5 % of the contract value per week delay, up to 4 weeks of time. Beyond 4 weeks MoSPI reserves the right to terminate the contract.
2.	Any issue reported should be resolved within a time of maximum 24 hours.	Within 24 hours of the reporting of issue by MoSPI	Nil
		After 24 hours of the reporting of issue by MoSPI	0.5 % of the contract value per day up to 1 week of time. Beyond 4-week MoSPI reserves the right to terminate the contract

Note: The timelines are indicative and exact timeline will be decided mutually based on severity of issue post onboarding of successful bidder.

11.9. Applicable SLAs during Implementation Stage:

Delay in Project Milestones	
Definition and Description	Timely delivery of all documents/items that are to be submitted as part of the Project deliverables. The deliverables are already listed in the RFP.
Service Level Requirement	a) All the deliverables defined in the RFP have to be submitted on-time. i) If any delay occurs, MoSPI will have the right to decide if the reason for delay was beyond the control of the Bidder and in such a case penalty will not be levied for that period. ii) If any deliverable is delayed because of its dependency on earlier deliverable (which was also delayed), then MoSPI will have the authority to decide the time for which the penalty should be relaxed/ levied. iii) This RFP specifies the timelines for submission of final version of the deliverables (i.e., after review by MoSPI). Selected Bidder is expected to make adequate provision for review process and shall submit the draft version of the deliverable much before the timeline.

	b)The key personnel deployed during the development phase of the project should not be replaced.
Measurement of Service Level Parameter	Measured as the difference between the planned date for the milestone and the actual date of its completion.
Penalty for non-achievement of SLA Requirement	a)Delay in completion of milestone would attract penalty as per the following: i) 0.5% of contract value (development phase) per week of delay: Up to 4 weeks ii) 1% of contract value (development phase) per week of delay: Post 4 weeks iii) Beyond 8 weeks of delay, MoSPI reserves the right to terminate the contract. In case of delay in days, the penalty will be calculated on prorated basis. b) A penalty of 0.5 % would be levied on the total contract value of the development phase on replacement of Key Resources (Project Manager and Solution Architect) during the development period.

11.10.Applicable SLAs during Operation and Maintenance Stage:

11.10.1. Availability

MoSPI System/ Portal/Dashboard Availability	
Definition and Description	Availability of applications refers to the total time when the application is available to the users for performing all activities and tasks. The application should be accessible 24x7x365 days.
Service Level Requirement	The average availability of the application shall be at least 99% in a month, except during Critical Time (CT) when the average availability would be 99.5%. The same service levels will be applicable for a situation when operations are running from DR as well.
Measurement of Service Level Parameters	Uptime = $\{1 - [(\text{System Downtime}) / (\text{Total Time} - \text{Planned Maintenance Time})]\} * 100$ Any planned application downtime shall NOT be included in the calculation of application availability. This would be measured as an average of every month and the applicable penalties will be levied in the pay-out of the impacted quarter. A log for planned down time should be maintained.

Penalty for non-achievement of SLA Requirement	If the Bidder is not able to meet the above defined service level requirement, then any deviation from the same would attract a penalty as per the following.			
	Application Availability during Critical Time (CT)			
	Monthly average	99.9% to 99.5 %	<99.5% to 99%	< 99%
	Penalty	1 % of the Quarterly pay-out	2 % of the Quarterly pay-out	3 % of the Quarterly pay-out for each % below 99%
	Application Availability During Non-Critical Time (NCT)			
	Monthly average*	99.5% to 99 %	<99% to 98%	<98%
	Penalty	1 % of the Quarterly pay-out	2 % of the Quarterly pay-out	3 % of the Quarterly pay-out for each % below 98%
* If the application is consistently below 95% continuously for two or more months duration, then MoSPI reserves the right for termination of contract in part or full of the MSP				

11.10.2. System Performance SLA

MoSPI Portal Response Time – for reasons attributable to MSP and Not on Cloud Service Provider	
Definition and Description	Application response time refers to the total time that the application takes to load the requested page
Service Level Requirement	The application response (on fixed internet) time for users should not exceed. Average loading time for all pages – 1 sec Functionality screen load – 1 Sec Uploading/ downloading of documents (1 MB doc)– 4 sec The application response time (on WI-FI Internet) for users should not exceed. Average loading time for all pages – 2 sec Functionality screen load – 2 sec Uploading/ downloading of documents (1 MB doc) – 6 sec.
Measurement of Service Level Parameter	Application response time will be measured based on automated reports. The data should be captured through automated tools. Any scheduled downtime should not be included in the calculation of application response time. SLA reports are to be calculated and submitted on monthly basis, however, deduction and final pay-out to happen on a quarterly basis.

Penalty for non-achievement of SLA Requirement	If the MSP is not able to meet the above defined service level requirement for 95% of the cases, then any deviation from the same would attract a penalty as per the following –			
	Average loading time for all pages			
	Monthly Average	95% to 93%	<93% to 91%	<91 %
	Penalty	1 % of the Quarterly pay-out	2 % of the Quarterly pay-out	3 % of the Quarterly pay-out
	Functionality screen load			
	Monthly Average	95% to 93%	<93% to 91%	<91%
	Penalty	1 % of the Quarterly pay-out	2 % of the Quarterly pay-out	3 % of the Quarterly pay-out
	Uploading/ downloading of documents			
	Quarterly Average	95% to 93%	<93% to 91%	<91%
	Penalty	1 % of the Quarterly pay-out	2 % of the Quarterly pay-out	3 % of the Quarterly pay-out

11.11.Exclusions (for penalty calculation)

- a) The Bidder will be exempted from any delays or slippages on SLA parameters arising out of following reasons:
 - i. The non-compliance to the SLA other than for reasons beyond the control of the bidder. Any such delays will be notified in writing to MoSPI by selected bidder, decision whether it will not be treated as breach of SLA or not shall be discretion of MoSPI.
 - ii. If there is a force majeure event declared by the Government of India/MeitY/MoSPI effecting the SLA which is beyond the control of the selected bidder.

11.12.SLA Monitoring and Auditing:

- a) MoSPI will review the performance of bidder against the SLA parameters, quarterly or monthly, or at any periodicity defined in this RFP document or as decided by MoSPI at a later stage.
- b) The review/ audit report will form basis of any action relating to imposing penalty or breach of terms and conditions of work order. Any such review/ audit can be scheduled or unscheduled. The results will be shared with the selected bidder as soon as possible.
- c) MoSPI reserves the right to appoint a third-party auditor to validate the SLA.

11.13.Maximum Penalty to Bidder for the SLA:

The maximum penalty at any point of time on an additive basis shall not exceed 10% of the Commercial Bid submitted by the selected bidder. If during the contract period, the penalty exceeds 10% of contract value MoSPI reserves the right to terminate the contract and or forfeiture of PBG.

12. General Terms and Conditions:

12.1. Earnest Money Deposit

Bidders shall submit, along with their Proposals, EMD i.e. Rs. 12,00,000/- in the form of Bank Guarantee in favour of 'Pay and Accounts Officer, Ministry of Statistics and Programme Implementation (MoSPI), payable at New Delhi', and should be valid for until the final bid validity period with a claim period of 3 months after the expiry of validity of the Bank Guarantee issued in the name of MoSPI.

The EMD amount is interest free and will be refundable to the unsuccessful bidders within 30 days after the award of the contract without any accrued interest on it. The EMD, for the amount mentioned above, of successful Bidder would be returned after signing of Contract and submission of Performance Guarantee/Security.

The EMD may be forfeited:

- a) If Bidder withdraws its Proposal during the period of Proposal validity.
- b) In case of a successful Bidder, if the Bidder fails to sign the contract in accordance with this RFP.

The scanned copy of the Bank Guarantee or DD to be uploaded in GeM portal and the hard copy of the BG / DD must reach at SSD, MoSPI Khurshid Lal Bhawan, Janpath, New Delhi – 110001" before last date of submission of bid along with other documents.

12.2. Performance Bank Guarantee

- a) MoSPI will require the selected Bidder to provide a Performance Security in the form of an unconditional and irrevocable bank guarantee from a scheduled commercial bank in India in favour of 'Pay and Accounts Officer, Ministry of Statistics and Programme Implementation, payable at New Delhi', within 15 days from the notification of award, for a value equivalent to 5% of the cost discovered through the tender process, rounded up to the nearest of the nearest thousand Indian Rupees. The Performance Guarantee should be valid for a period of 60 days beyond the completion of all contractual liabilities.
- b) The Performance Guarantee shall be kept valid till completion of the project in case of extension. The Performance Guarantee shall contain a claim period of three months from the last date of validity.
- c) The selected Bidder shall be responsible for extending the validity date and claim period of the Performance Guarantee as and when it is due on account of non-completion of the Services and Warranty period.
- d) In case the selected Bidder fails to submit performance guarantee within the time stipulated, the MoSPI at its discretion may cancel the order placed on the selected Bidder without giving any notice.
- e) The MoSPI shall forfeit the performance guarantee in case the selected Bidder fails to discharge their contractual obligations during the period or the MoSPI incurs any loss due to Bidder's negligence in carrying out the project implementation as per the terms & conditions specified in the Contract Agreement.

12.3. Late Bids

The bids received after due date of submission of bids shall summarily be rejected.

- a) Pre-Bid Queries: The date and time for pre-bid meeting is DD Month 2025.

MoSPI will entertain queries on email at: dd4.ssdiv@mospi.gov.in to provide bidders with information regarding the project, the RFP in question and on the requirements/ scope of the

RFPs, and also provide each bidder with an opportunity to seek clarifications regarding any aspect of the RFP and the project.

S.No.	RFP Clause no. & Page No.	RFP Original Clause Statement	Query raised by bidder / Points of Clarification required by bidder	Reason for query

b) Authentication of Proposals:

A proposal should be accompanied by a power-of-attorney (in the given format) in the name of the signatory of the Proposal or a copy of Board Resolution certified by the Company Secretary.

12.4. Right to Accept/Reject any Proposal & Terminate the Process

- a) The MoSPI may terminate the RFP process at any time and without assigning any reason. The MoSPI makes no commitment, expressed or implied, that this process will result in a business transaction with anyone. MoSPI also reserves the right to accept/reject any proposal without any grounds for providing justification to the Bidder.
- b) This RFP does not constitute an offer by the MoSPI.

12.5. General Terms

- a) It is clarified that the scope of work is not exhaustive, and that the Solution Development team will undertake such other tasks, within the scope of the RFP, as may be necessary to implement the scope and the project efficiently and effectively to achieve the desired outcomes of the project.
- b) The working hours of the Bidder will be co-terminus with the working hours of MoSPI.
- c) The Bidder shall be required to sensitize the employees about the need of maintaining absolute data secrecy and take every possible step to ensure that data either in paper form or in digitized form, are not misused, not published online, not put in the public domain and not transmitted in such digital form which can be intercepted or searched through internet search engines.
- d) The Bidder shall not, without prior written consent from the MoSPI, disclose the Contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of the MoSPI in connection therewith, to any person other than a person employed by the Bidder in the performance of the Contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far, as may be necessary for purposes of such performance.
- e) The Bidder shall not, without prior written consent of the Ministry, use any document or information made available for the project, except for performing the Contract.
- f) All data collected, processed, generated, or otherwise acquired under this project shall remain the exclusive property of the MoSPI. The selected agency shall not use, reproduce, share, or retain any data or source code developed under this project for any purpose other than for the performance of services under this contract.
- g) The ownership of all source code, scripts, algorithms, models, configuration files, software components, and documentation developed or customized under this project shall rest

solely with MoSPI. The selected agency must ensure complete and secure handover of all data and code to MoSPI at the end of the project or as and when requested by MoSPI.

- h) The selected bidder is required to supply the entire source code, configuration, and data migration scripts, and must impart knowledge and materials to the bidder's team. All utilized third-party components must be explicitly stated.

12.6. Confidentiality

- a) Information relating to the evaluation of proposals and recommendations concerning awards shall not be disclosed to the bidders who submitted the proposals or to other persons not officially concerned with the process, until the publication of the award of the contract.
- b) The undue use by any Bidder of any information related to the process may result in the rejection of its Proposal and may be subject to the provisions of the Client's anti-fraud and corruption policy.

12.7. Dispute Resolution

- a) The Bidder and MoSPI shall endeavour their best to amicably settle, by direct negotiation, all disputes arising out of or in connection with the contract.
- b) In case any dispute between the Parties, does not settle by negotiation, the same may be resolved exclusively by arbitration and such dispute may be submitted by either party for arbitration. Arbitration shall be held in New Delhi and conducted in accordance with the provisions of Arbitration and Conciliation Act, 1996 or any statutory modification or re-enactment thereof. Each Party to the dispute shall appoint one arbitrator each and the third to be appointed by the Department of Information Technology, Government of India.
- c) The "Arbitration Notice" should accurately set out the disputes between the parties, the intention of the aggrieved party to refer such disputes to arbitration as provided herein, the name of the person it seeks to appoint as an arbitrator with a request to the other party to appoint its arbitrator within 45 days from receipt of the notice. All notices by one party to the other in connection with the arbitration shall be in writing and be made as provided in this RFP document.
- d) Each Party shall bear the cost of preparing and presenting its case, and the cost of arbitration, including fees and expenses of the arbitrators, shall be shared equally by the Parties unless the award otherwise provides. The Bidder shall not be entitled to suspend the Service/s or the completion of the job, pending resolution of any dispute between the Parties and shall continue to render the Service/s in accordance with the provisions of the Contract/Agreement notwithstanding the existence of any dispute between the Parties or the subsistence of any arbitration or other proceedings.

12.8. Applicable Law

The Bidder shall be governed by the laws and procedures established by Govt. of India, within the framework of applicable legislation and enactment made from time to time concerning such commercial dealings/processing. All procedures laid down in GFR and DFPR shall be adhered-to strictly by the MoSPI and subordinates and Bidders are bound to respect the same.

12.9. Labour Law

The Bidder shall comply with all the provisions of Indian Labour Laws and industrial laws in respect of the manpower employed thereof be governed by the laws and procedures established by Govt. of India, within the framework of applicable legislation and enactment made from time to time concerning such commercial dealings/ processing.

12.10.Information Security

- a) The selected bidder shall not carry and/or transmit any material, information, application details, equipment, or any other goods/material in physical or electronic form, which are proprietary to or owned by MoSPI, out of premises without prior written permission from MoSPI.
- b) The selected bidder to acknowledge that MoSPI's business data and other MoSPI proprietary information or materials, whether developed by MoSPI or being used by MoSPI pursuant to a license agreement with a third party (the foregoing collectively referred to herein as "proprietary information") are confidential and proprietary to MoSPI; and the selected bidder agrees to use reasonable care to safeguard the proprietary information and to prevent the unauthorized use or disclosure thereof, which care shall not be less than that used by the selected bidder to protect its own proprietary information.
- c) The selected bidder shall recognize that the goodwill of MoSPI depends, among other things, upon selected bidder keeping such proprietary information confidential and that unauthorized disclosure of the same by selected bidder could damage MoSPI and that by reason of selected bidder's duties hereunder. Selected bidder may come into possession of such proprietary information, even though selected bidder does not take any direct part in or furnish the services performed for the creation of said proprietary information and shall limit access thereto to employees with a need to such access to perform the services required by this agreement. Selected bidder shall use such information only for the purpose of performing the said services.
- d) The selected bidder shall, upon termination of this agreement for any reason, or upon demand by MoSPI, whichever is earliest, return all information provided to the selected bidder by MoSPI, including any copies or reproductions, both hardcopy and electronic.
- e) The selected bidder will not disclose any information, to anyone in any form about software, hardware, network topology, IP Schema, and network security policies of MoSPI. Information disclosure to anyone shall be only with prior written consent of MoSPI. A separate "Non-Disclosure Agreement" as per Form - 8 shall be signed within 1 week after receiving a work order.

12.11.Force Majeure

For the purposes of this engagement, "Force Majeure" means an event which is beyond the reasonable control of a Party, is not foreseeable, is unavoidable and not brought about by or at the instance of the Party claiming to be affected by such events and which has caused the non-performance or delay in performance, and which makes a Party's performance of its obligations hereunder impossible or so impractical as reasonably to be considered impossible in the circumstances, and includes, but is not limited to, war, riots, civil disorder, earthquake, fire, explosion, storm, flood or other extreme adverse weather conditions, strikes, lockouts or other industrial action (except where such strikes, lockouts or other industrial action are within the power of the Party invoking Force Majeure to prevent), confiscation or any other action by Government agencies. Force Majeure shall not include:

- (i) Any event which is caused by the negligence or intentional action of a Party or by/of such Party's agents or employees, nor
- (ii) Any event which a diligent Party could reasonably have been expected both to consider at the time of the conclusion of this engagement and avoid or overcome in the carrying out of its obligations hereunder. iii. Force Majeure shall not include insufficiency of funds or inability to make any payment required hereunder.

12.12. Continuous Development on Mutual Terms

MoSPI may, based on its strategic or operational requirements, request modifications, additions, or changes to the scope of the Project, Services, or Deliverables during any phase of this engagement. Any regular tasks including but not limited to addition of processing modules, integration of analysis tools, dashboards, innovate web forms/activities in the developed software/application will not be considered as part of change/additional development and will have to be completed by the selected Bidder at no additional cost (even if it requires any enhancements/customizations).

12.13. Abnormally Low Bids

An Abnormally Low Bid/Proposal is one in which the Bid/Proposal price, in combination with other elements of the Bid/Proposal, appears so low that it raises material concerns as to the capability of the Bidder/Bidder to perform the contract at the offered price. If the rates/prices finalised with successful Bidder(s) are found to be having a value less than 25% of the average cost of the other bids, then such work shall be identified as "Abnormally Low Bid (ALB)". If any bidder quoted the rates abnormally below the estimated tender value, the same shall be summarily rejected by the client without assigned any reason thereof and the decision of client shall be final.

12.14. Indemnity

- a) The selected Bidder shall indemnify MoSPI against any liability incurred on account of any default by the selected Bidder or manpower deployed by it.
- b) The selected Bidder shall indemnify and defend the MoSPI against all third-party claims of infringement of patent, trademark/copyright or industrial design rights arising from the use of the supplied software, design architecture, templates, layouts, documents, other artefacts, deployed resources and related services or any part thereof ("Deliverables").
- c) MoSPI stand indemnified from any employment claims that the engaged Manpower/Resources may opt to have towards the discharge of their duties in the fulfilment of the Work Orders.
- d) Each party also stands indemnified from any compensation arising out of accidental loss of life or injury sustained by such party's manpower while discharging their duty towards fulfilment of the Work Orders caused by the negligence or willful misconduct of the other Party or its agents and representatives.

12.15. Limitation of Liability

Except conditions enumerated in Indemnity Clause, the damage caused by the Bidder to MoSPI under any work order issued pursuant to this agreement, the Bidder shall be liable to end user / MoSPI for damage and loss to the maximum extent of the work order value. Bidder shall be liable for all acts of omission and commission by its employees deployed under this agreement and MoSPI stands insulated against aggrieved third-party complaints against any civil or criminal actions of the Bidder or its employees.

12.16. Integrity Pact/Non-Disclosure Agreement

- a) In compliance with the Central Vigilance Commissioner Circular No. 06/05/21 dated 3rd June 2021 regarding adaptation of Integrity Pact- Revised Standard Operating Procedure to ensure transparency, equity and competitiveness in public procurement, the Bidder(s)/Bidder(s)/Prospective vender(s) are required to sign an Integrity Pact (IP) with MoSPI.
- b) The pact is essentially an agreement between the Bidder(s)/ Bidder(s)/Prospective Bidder(s) and the MoSPI, committing the persons/Officials of both sides, not to resort to any corrupt practices in any aspect/stage of the contract. Only those selected Bidders,

who commit themselves to such a pact with the MoSPI, would be considered competent to participate in the bidding process.

- c) The selected Bidders are required to enter in an Integrity Pact with the Purchaser. For this, the Bidder shall submit the original signed and stamped Integrity Pact as part of technical bids, failing which the bids would not be considered for evaluation for such selected and may Bidders get disqualified.
- d) Further, any violation of Integrity pact would entail disqualification of the Bidder(s)/Bidder(s) and exclusion from MoSPI's future bidding process for two years and execution of Bid Securing Declaration Form of such Bidder(s)/Bidder(s).

12.17. Confidential Information, Security and Data

The selected bidder will promptly on the commencement of the exit management period supply to MoSPI the following:

- a) Information relating to the current services rendered and performance data relating to the performance of sub-contractors in relation to the services.
- b) Documentation relating to Project's Intellectual Property Rights.
- c) Project data and confidential information and all current and updated Project data as is reasonably required for purposes of Project or its nominated agencies transitioning the services to its Replacement bidder in a readily available format specified by MoSPI.
- d) All other information (including but not limited to documents, records and agreements) relating to the services reasonably necessary to enable Project or its nominated agencies, or its Replacement bidder to carry out due diligence in order to transition the provision of the Services to Project.
- e) Before the expiry of the exit management period, the selected bidder shall deliver to MoSPI all new or up-dated materials from the categories set out above and shall not retain any copies thereof.
- f) On request by the MoSPI, the selected bidder shall effect such assignments, transfers, licenses and sub-licenses as the SSD may require in favor of the MoSPI, or its Replacement selected bidder in relation to any equipment, lease, maintenance or service provision agreement between selected bidder and third party lessors, vendors, and which are related to the services and reasonably necessary for the carrying out of replacement services by the MoSPI or its Replacement Implementation bidder.
- g) Selected bidder shall clearly transfer all knowledge related to the project and its operations and specifically share with MoSPI and its authorized agent(s) so nominated, the learnings of the project and approach that was adopted in managing project performance, meeting risks and how specific technical situations were handled in O&M. These should be as far as possible through a documented form supported by other interactive methods.
- h) In the event of termination or expiry of agreement, Project Implementation, or Operation and Management SLA, each Party shall comply with the Exit Management Plan and O&M.
- i) During the exit management period, the selected bidder shall continue to deliver the Services.
- j) Each Exit Management Plan shall be presented by the selected bidder to and approved by the MoSPI or its nominated agencies. As part of this requirement the selected bidder shall provide all supporting information and reasonable access to verify / audit the submissions made in the Exit Management Plan including but not limited to what has been described any time during the validity of the Agreement.

13. Exit Management

This clause sets out the provisions, which will apply during the Exit Management period. The Parties shall ensure that their respective associated entities carry out their respective obligations set out in this Exit Management Clause.

The exit management period starts, in the case of expiry of contract, at least 3 months prior to the date when the contract comes to an end or in case of termination of contract, on the date when the notice of termination is sent to the selected bidder. The exit management period ends on the date agreed upon by MoSPI or three months after the beginning of the exit management period, whichever is earlier.

13.1. Exit Management Plan

The selected bidder shall submit an "Exit Management Plan" to MoSPI, which shall deal with at least the following aspects of exit management in relation to the SLA as a whole and in relation to scope of work and RFP terms.

- a) A detailed program of the transfer process that could be used in conjunction with a Replacement Bidder including details of the means to be used to ensure continuing provision of the services throughout the transfer process or until the cessation of the services and of the management structure to be used during the transfer.
- b) Plans for the communication with such of the selected bidder, staff, customers and any related third party as are necessary to avoid any material detrimental impact on Project's operations because of undertaking the transfer.
- c) Exit Management Plan shall be presented by the selected bidder too and approved by MoSPI or its nominated agencies.
- d) Continuity and performance of the Services at all times including the duration of the Agreement and post expiry of the Agreement is a critical requirement of MoSPI. It is the prime responsibility of the selected bidder to ensure continuity of service at all times of the Agreement including exit management period and in no way any facility/service shall be affected/degraded. Further, selected bidder is also responsible for all activities required to train and transfer the knowledge to the Replacement bidder to ensure similar continuity and performance of the Services post expiry of the Agreement.
- e) Selected bidder will be required to carry out a gap analysis of the facilities and arrangements made by the Replacement bidder and specifically inform MoSPI. This Schedule sets out the mechanisms for Exit Management Services which the selected bidder has to provide on termination or prior to expiration or of the Agreement to allow the orderly and efficient transition of the Services to MoSPI or its nominee.
- f) Notwithstanding anything contained in this Agreement, the task of selected bidder with reference to the Exit Management is deemed to be complete only when MoSPI issues a satisfactory completion certificate for the Exit Management.
- g) In case selected bidder desires to close or shut down its business then in that case, selected bidder shall inform MoSPI at least three (3) months before closing its business. Failure on the part of selected bidder in informing MoSPI about its intention to close its business shall make MoSPI entitled to claim compensation and invoke the Performance Bank Guarantee.
- h) The exit management services will be available to MoSPI or its nominees or the Replacement bidder till all tasks set out in the Exit Management Plan (which has been duly approved in writing by MoSPI) have been completed to the satisfaction of MoSPI.

The terms of payment as stated in the Terms of Payment Schedule include the costs of the selected bidder complying with its obligations under this Schedule.

13.2. Transfer of Assets

- a) Selected bidder shall transfer all rights, titles and interests in the System Software to MoSPI or its nominees within 30 days from their acquisition (or at such time on or before the Go-Live date as specified by MoSPI on its sole discretion) along with all artifacts including but not limited to licenses, user manuals, versions/enhancements, standard operating procedures and other information. Further, selected bidder undertakes that the licenses of all the System Software for the purpose of the Project should be procured in the name of MoSPI and executes such deeds and documents as may be necessary for the aforesaid purposes including completing all legal or other formalities required in this regard.
- b) Selected bidder shall transfer all rights, titles and interests in the Application Software to MoSPI or its nominees on Go-live Date of each phase(s) along with all artifact including but not limited to licenses, user manuals, versions/enhancements, standard operating procedures and other information and execute such deeds and documents as may be necessary for the aforesaid purposes including completing all legal or other formalities required in this regard
- c) Selected bidder shall transfer all rights, titles and interests in the Hardware to POs or its nominees within 30 days from the Go-Live date of each phase(s) along with all artifact including but not limited to licenses, user manuals, versions/enhancements, standard operating procedures and other information and O&M for MoSPI and execute such deeds and documents as may be necessary for the aforesaid purposes including completing all legal or other formalities required in this regard.
- d) In case the Agreement is terminated, MoSPI shall take over all the System Software, Application software and Hardware used for the purpose of Project. All the remaining Assets, which still remain to be transferred at the time of exit, shall be transferred by selected bidder to MoSPI, latest by the last day of the exit management period to MoSPI and selected bidder shall hand over the possession of the assets and related documents and information.
- e) It is hereby clarified that in respect of the System and Application Software, ownership includes all updates and enhancements of that software.
- f) In case the Assets to be transferred are mortgaged to any financial institutions by the selected bidder, the selected bidder shall ensure that all such liens and liabilities have been cleared beyond doubt, prior to such transfer. All documents regarding the discharge of such lien and liabilities shall be furnished to the MoSPI.
- g) Selected Bidder hereby agrees that, even after the Assets has been transferred and/or handed over to MoSPI, operation and management responsibilities in respect of these Assets shall be borne by the selected bidder during the term of the agreement. Pursuant to this Article, all operation and management responsibility relating to the Asset shall be transferred to MoSPI, on the last day of the exit management period.
- h) In case the Assets reaches the 'end of the support', 'end of the sale' and 'end of the life' during the term of the Agreement, selected bidder will be duty bound to replace such Assets during the term of the Agreement and exit management period with no additional cost.
- i) Selected bidder warrants and represents that it shall procure and manage the comprehensive insurance for all the Assets during the term of the Agreement even after the Assets has been transferred and/or handed over to MoSPI and shall bear all the risk on Assets for the entire term of the Agreement.
- j) The selected bidder will pass on to MoSPI and/or to the Replacement bidder, the subsisting rights in any leased properties/ licensed products/insurance policies/warranties/AMCs/CMCs on terms not less favourable to MoSPI.

Scoring will be done based on: • Understanding /Conceptualization of project. • Approach & Methodology, deployment plan. • Proposed CVs of all the resources	20	

Appendix – 2

Form 1: Letter of Technical Proposal Submission Form

To,
Deputy Director General (DDG)
SSD, MoSPI

Khurshid Lal Bhawan,

Janpath, New Delhi – 110001.

Dear.....,

We, the undersigned, offer to provide development services to _____ in accordance with your Request for Proposals. We are hereby submitting our Proposal, which includes both Technical and Financial Proposals separately.

We hereby declare that:

- a) All the information and statements made in this Proposal are true, and we accept that any misinterpretation or misrepresentation contained in this Proposal may lead to our disqualification by the Client.
- b) Our Proposal shall be valid and remain binding upon us for the period of 90 days from the date of submission of the Proposal as stipulated in the agreement.
- c) We have no conflict of interest in accordance with the agreement.
- d) We meet the eligibility requirements as stated in the agreement, and we confirm our understanding of our obligation to abide by the policy on Code of Integrity of Public Procurement regarding corrupt and fraudulent practices as per the agreement.
- e) We, along with the team members proposed for the said assignment, are not subject to, and/ or not controlled by any entity or individual that is subject to, a temporary suspension or a debarment imposed by any offices of the Government of India/ State Govts / UTs.
- f) In competing for (and, if the award is made to us, in executing) the Contract, we undertake to observe the laws against fraud and corruption, including bribery, in force in the country of the Client and shall abide by the Code of Integrity for Public Procurement as per the agreement.
- g) We undertake to negotiate a Contract based on the Proposal. We accept that the substitution of Key Experts, without the previous consent of MoSPI, during the Proposal validity period may lead to the termination of Contract negotiations.
- h) Our Proposal is binding upon us and subject to any modifications resulting from the Contract negotiations.

We undertake, if our Proposal is accepted and the Contract is signed, to initiate the Services related to the assignment no later than the dates indicated in the agreement.

We understand you are not bound to accept any Proposal you receive.

Yours sincerely,

Authorized Signature (In full and initials): _____

Form 8: Format for Non-Disclosure Agreement

(To be submitted by successful bidder post issue of Work Order)

This Non-Disclosure Agreement ("Non-Disc") is made and entered into _____ day of _____ month _____ year (effective date) by and between MoSPI ("Department") and _____ ("Company")

Whereas, Department and Company have entered into an Agreement _____ effective _____ for _____;
AND

Whereas each party desires to disclose to the other party certain information in oral or written form, which is proprietary and confidential to the disclosing party, ("CONFIDENTIAL INFORMATION"). The confidentiality obligations shall survive the termination of this Contract.

NOW, THEREFORE, in consideration of the foregoing and the covenants and agreements contained herein, the parties agree as follows:

Definitions. As used herein:

The term "Confidential Information" shall include, without limitation, all information and materials, furnished by either Party to the other in connection with citizen/ users/ persons/ customers data, products and/ or services, including information transmitted in writing, orally, visually, (e.g. video terminal display) or on magnetic or optical media, and including all proprietary information, customer lists, trade secrets, trade names or proposed trade names, methods and, licensed document know-how, ideas, concepts, and other intellectual property relating to the disclosing party's data, computer database, products and/ or services. Results of any tests, sample surveys, analytics, data mining exercises or usages etc. carried out by the receiving party in connection with the Department's Information including citizen/ users/ persons/ customers personal or sensitive personal information as defined under any law for the time being in force shall also be considered Confidential Information.

The term "Department" shall include the officers, employees, agents, consultants, contractors and representatives of the MoSPI.

The term, "Company" shall include the directors, officers, employees, agents, consultants, contractors and representatives of Company, including its applicable affiliates and subsidiary companies.

Protection of Confidential Information. With respect to any Confidential Information disclosed to it or to which it has access, Company affirms that it shall:

Use the Confidential Information as necessary only in connection with Project and in accordance with the terms and conditions contained herein.

Maintain the Confidential Information in strict confidence and take all reasonable steps to enforce the confidentiality obligations imposed hereunder, but in no event take less care with the Confidential Information that the parties take to protect the confidentiality of its own proprietary and confidential information and that of its clients.

Not to make or retain copy of any citizen/ users/ persons/ customers database, Proposals developed by or originating from Department or any of the prospective clients of Department except as necessary, under prior written intimation from Department, in connection with the Project, and ensure that any such copy is immediately returned to Department even without express demand from Department to do so.

Not disclose or in any way assist or permit the disclosure of any Confidential Information to any other person or entity without the express written consent of the other party; and

Return to the other party, or destroy, at Department's discretion, any and all Confidential Information disclosed in oral/ printed form or other permanent record, or in any other tangible form (including without limitation, all copies, notes, extracts, analyses, studies, summaries, records and reproductions thereof) immediately upon the earlier to occur of (i) expiration or termination of either party's engagement in the Project, or (ii) the request of the other party therefore.

Not to discuss with any member of the public, media, press, any or any other person about the nature of arrangement entered between Department and Company or the nature of services to be provided by the Company to the Department.

Onus - Company shall have the burden of proving that any disclosure or use inconsistent with the terms and conditions hereof falls within any of the following exceptions.

Exceptions - These restrictions as enumerated in this Agreement shall not apply to any Confidential Information:

Which is independently developed by Company or lawfully received from another source free of restriction and without breach of this Agreement; or

After it has become generally available to the public without breach of this Agreement by Company; or

Which at the time of disclosure to Company was known to such party free of restriction and evidenced by documentation in such party's possession; or

Which Department agrees in writing is free of such restrictions.

Which is received from a third party not subject to the obligation of confidentiality with respect to such Information.

Remedies - Company acknowledges that (a) any actual or threatened disclosure or use of the Confidential Information by Company would be a breach of this agreement and may cause immediate and irreparable harm to Department; (b) Company affirms that damages from such disclosure or use by it may be impossible to measure accurately; and (c) injury sustained by Department may be impossible to calculate and remedy fully. Therefore, Company acknowledges that in the event of such a breach, Department shall be entitled to specific performance by Company of Company's obligations contained in this Agreement. In addition, the Company shall indemnify the Department of the actual and liquidated damages which may be demanded by the Department. Moreover, the Department shall be entitled to recover all costs (including reasonable attorneys' fees) which it or they may incur in connection with

defending its interests and enforcement of legal rights arising due to a breach of this agreement by the Company.

Need to Know. Company shall restrict disclosure of such Confidential Information to its employees and/ or consultants with a need to know (and advise such employees of the obligations assumed herein), shall use the Confidential Information only for the purposes set forth in the Agreement, and shall not disclose such Confidential Information to any affiliates, subsidiaries, associates and/ or third party without prior written approval of the disclosing party.

Intellectual Property Rights Protection - No license to a party, under any trademark, patent, copyright, design right, mask work protection right, or any other intellectual property right is either granted or implied by the conveying of Confidential Information to such party.

No Conflict - The parties represent and warrant that the performance of its obligations hereunder does not and shall not conflict with any other agreement or obligation of the respective parties to which they are a party or by which the respective parties are bound.

Authority - The parties represent and warrant that they have all necessary authority and power to enter into this Agreement and perform their obligations hereunder.

Dispute Resolution - If any difference or dispute arises between the Department and the Company in connection with the validity, interpretation, implementation or alleged breach of any provision of this Agreement, any such dispute shall be referred to MoSPI.

The arbitration proceedings shall be conducted in accordance with the (Indian) Arbitration & Conciliation Act, 1996 & amendments thereof.

The place of arbitration shall be the New Delhi.

The arbitrator's award shall be substantiated in writing and binding on the parties.

The proceedings of arbitration shall be conducted in English language.

The arbitration proceedings shall be completed within a period of 180 days from the date of reference of the dispute to arbitration.

Governing Law - This Agreement shall be interpreted in accordance with and governed by the substantive and procedural laws of India and the parties hereby consent to the exclusive jurisdiction of Courts and/ or Forums situated at New Delhi, India only.

Entire Agreement. This Agreement constitutes the entire understanding and agreement of the parties, and supersedes all previous or contemporaneous agreement or communications, both oral and written, representations and understandings among the parties with respect to the subject matter hereof.

Amendments - No amendment, modification and/ or discharge of this Agreement shall be valid or binding on the parties unless made in writing and signed on behalf of each of the parties by their respective duly authorized officers or representatives.

Binding Agreement - This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns.

Severability - It is the intent of the parties that in case any one or more of the provisions contained in this Agreement shall be held to be invalid or unenforceable in any respect, such provision shall be modified to the extent necessary to render it, as modified, valid and enforceable under applicable laws, and such invalidity or unenforceability shall not affect the other provisions of this Agreement.

Waiver - If either party should waive any breach of any provision of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision hereof.

Survival - Both parties agree that all their obligations undertaken herein with respect to Confidential Information received pursuant to this Agreement shall survive till perpetuity even after any expiration or termination of this Agreement.

IN WITNESS HEREOF, and intending to be legally bound, the parties have executed this Agreement to make it effective from the date and year first written above.
